Agenda – City Centre Community Committee – June 23, 2026

PUBLIC HEARINGS

Item No. 4 Conditional Use – 626 and 628 Garwood Avenue
(Fort Rouge-East Fort Garry Ward)
File DCU 131893/2026D [c/r DAZ 210/2026 and DAV 270917/2025D]

WINNIPEG PUBLIC SERVICE RECOMMENDATION:

The Urban Planning and Design Division recommends approval of the application for a Conditional Use under "R2 Mature Communities PDO-1" of Winnipeg Zoning By-Law No. 200/2006 to permit the establishment of a Multi-Family Dwelling (6 units) use subject to the following conditions:

1. That the Order shall come into force and effect upon the coming into force and effect of the zoning by-law for the subject land under File DAZ 210/2026.

2. That the development shall be constructed in substantial conformance with the plans submitted under File No. DCU 26-131893/D, and thereafter maintained to the satisfaction of the Director of Planning, Property and Development;

   OR

   That the Owner must submit plans showing the location and design of any and all proposed:

   i. buildings;
   ii. accessory parking areas;
   iii. driveways;
   iv. garbage enclosures;
   v. fencing;
   vi. landscaping

   on the Owner's Land ("Works") to the Director of Planning, Property and Development for approval prior to the issuance of any building or development permit, and thereafter must construct the Works in substantial conformance with the approved plans and maintain the Works to the satisfaction of the Director.

Agenda – City Centre Community Committee – June 23, 2026

File:	DCU 131893/2026D
Applicant:	KNH Sawatzky & Associates Ltd. (Landon Friesen)
Premises Affected:	626 and 628 Garwood Avenue
Legal Description:	LOT ½ BLOCK `7 PLAN 319 29/31 ST B, hereinafter called "the land"
Property Zoned:	"R1-S Mature Communities PDO-1" (Residential Single Family)
Nature of Application:	For a Conditional Use under the "R2 Mature Communities PDO-1" of the Winnipeg Zoning By-law No. 200/2006 to permit the establishment of a Multi-Family Dwelling (6 units) use.
Exhibits Filed:	1. Application dated March 20, 2026 2. Notification of Public Hearing dated June 4, 2026 3. Manitoba Status of Title 3343204/1 4. Letter of authorization dated December 9, 2025 from 10219705 Manitoba Ltd. (John Vincent Sy Galauran) to KNH Sawatzky & Associates Ltd. (Landon Friesen) 5. Confirmation from the Zoning and Permits Administrator that the subject property may be posted in substitution for newspaper advertising 6. Plans, Sheets 1 to 7 inclusive, for File DCU 131893/2026D dated June 9, 2026 7. Report from the Urban Planning Division dated June 9, 2026 8. Inspection Report

The Winnipeg Public Service to advise that all statutory requirements with respect to this application have been complied with.

Moved by Councillor

That the report of the Winnipeg Public Service be taken as read.

Moved by Councillor

That the receipt of public representations be concluded.

Moved by Councillor

That in accordance with Section 254 and Subsection 247(3) of The City of Winnipeg Charter, the Conditional Use,

(a) ☐ is consistent ☐ is not consistent
with Plan Winnipeg, and any applicable secondary plan;

(b) ☐ does not create ☐ does create
a substantial adverse effect on the amenities, use, safety and convenience of the adjoining property and adjacent area, including an area separated from the property by a street or waterway; and

(d) ☐ is ☐ is not
compatible with the area in which the property to be affected is situated.

Supporting Reasons:

Moved by Councillor

That the recommendation of the Winnipeg Public Service be / not be concurred in and the Conditional Use be approved / rejected.

Moved by Councillor

That the public hearing with respect to this application be concluded.

Exhibit “7” referred to in File DCU 131893/2026D

ADMINISTRATIVE REPORT

Title: DCU 26-131893\D – 626 and 628 Garwood Ave

Issue: For consideration of a Conditional Use for the construction of a six-unit multi-family building.

Critical Path: City Centre Community Committee

RECOMMENDATION

The Urban Planning and Design Division recommends **approval** of the application for a Conditional Use under "R2 Mature Communities PDO-1" of Winnipeg Zoning By-Law No. 200/2006 to permit the establishment of a Multi-Family Dwelling (6 units) use.

Subject to the following condition(s):

1. That, the Order shall come into force and effect upon the coming into force and effect of the zoning by-law for the subject land under File DAZ 210/2026.
2. That the development shall be constructed in substantial conformance with the plans submitted under File No. DCU 26-131893/D, and thereafter maintained to the satisfaction of the Director of Planning, Property and Development;

   OR

   That the Owner must submit plans showing the location and design of any and all proposed:

   i. buildings;
   ii. accessory parking areas;
   iii. driveways;
   iv. garbage enclosures;
   v. fencing;
   vi. landscaping

on the Owner's Land ("Works") to the Director of Planning, Property and Development for approval prior to the issuance of any building or development permit, and thereafter must construct the Works in substantial conformance with the approved plans and maintain the Works to the satisfaction of the Director.

REASON FOR THE REPORT

- The applicant is proposing to build a six-unit multi-family building. Multi-family buildings require a Conditional Use in the "R2" Residential – Two-Family district.
- This report provides information regarding the subject application's compliance with *The City of Winnipeg Charter*, section 249.

HISTORY

N/A

DISCUSSION

CRITERIA FOR APPROVAL

Pursuant to Section 247(3) of *The City of Winnipeg Charter*, an application for a Conditional Use with respect to a property may be approved if the Conditional Use:

(a) is consistent with *Plan Winnipeg* and any applicable secondary plan;

(b) does not create a substantial adverse effect on the amenities, use, safety and convenience of the adjoining property and adjacent area, including an area separated from the property by a street or waterway;

(d) is compatible with the area in which the property to be affected is situated.

SITE DESCRIPTION

- The subject property is located at the southeast corner of Garwood Avenue and Hugo Street N, in the Earl Grey neighbourhood of the Fort Rouge - East Fort Garry ward.
- The subject property is located in an "Established Neighbourhood-Mature Community" policy area as identified in *Complete Communities 2.0*.
- The subject property is currently zoned "R1-S" Residential – Single-Family – Small district, and is approximately 5058 square feet in area.
- The subject property is accessed by a paved rear lane.

SURROUNDING LAND USE AND ZONING

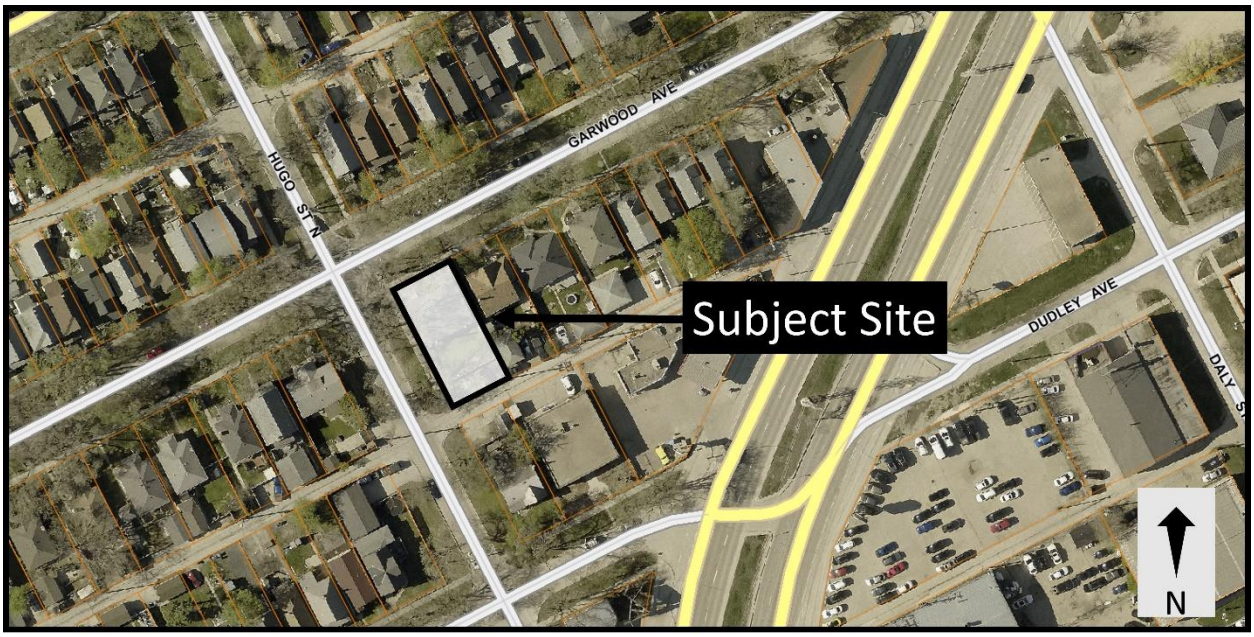

Figure 1: Aerial Photo of Subject Site and Surrounding Uses (flown 2024).

North: Garwood Avenue, then a single-family dwelling zoned "R1-S" Residential – Single-Family – Small district.

South: A rear lane, then a commercial use zoned “C2” Commercial – Neighbourhood district and a single-family dwelling zoned “R1-S” Residential – Single-Family – Small district.

East: A two-family dwelling zoned “R1-S” Residential – Single-Family – Small district.

West: Hugo Street N, then a single-family dwelling zoned “R1-S” Residential – Single-Family – Small district.

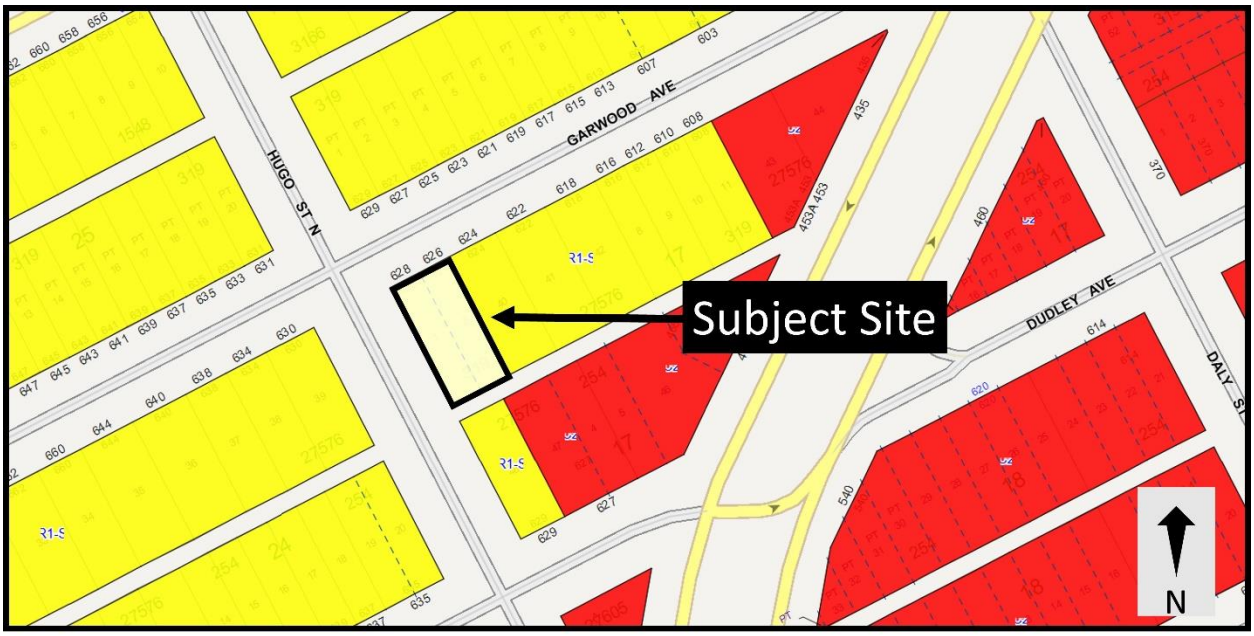

Figure 2: Zoning of the subject site and surrounding area.

DESCRIPTION OF THE PROPOSED DEVELOPMENT

- The applicant intends to construct a six-unit multi-family development, oriented towards Garwood Avenue and Hugo Street N. The building would:
    - Be two stories in height (30'-9 3/8" measured to the peak of the roof).
    - Have a 13’ front yard setback from the building foundation to the Garwood Avenue property line, and an 8’ front yard setback from the front porch and balcony to the Garwood Avenue property line.
    - Have a 6’ west side yard setback to Hugo St. N.
    - Have a 6'-6 ¾” east side yard setback to the abutting property.
    - Have a 33’ 3 1/8” rear yard setback to the lane.
    - Include individual unit entrances on the north (Garwood Avenue), west (Hugo Street N), and south elevations, with direct pedestrian connections to the sidewalks on Hugo Street N and Garwood Avenue.
    - Include balconies and porches on the north and south elevations.
    - Be clad in a mixture of acrylic stucco and cement board.

- The site plan also shows:
    - One new tree and 11 new shrubs.
    - Five parking spaces, including one accessible stall.
    - A bicycle rack with space for three bicycles.

Collaboration with the Public Service:

- N/A

ANALYSIS AND ISSUES

The *Complete Communities Direction Strategy 2.0* (*CCDS 2.0*) is one of four direction strategies supporting *OurWinnipeg*, the city's long-range development plan, and has statutory authority as a secondary plan. The strategy guides land use and development in Winnipeg. *CCDS 2.0* provides policy guidance when assessing proposals that are seeking entitlements or changes to the *Winnipeg Zoning By-Law*.

The subject site is located in an "Established Neighbourhood – Mature Communities" policy area of *CCDS 2.0*. The following goals and policies of *CCDS 2.0* apply to the proposal:

- Goal 1 - *Encourage compatible residential development within Established Neighbourhoods to build more Complete Communities and align with the City's residential intensification target.*

    General policies

    - *1.1 Encourage residential development that positively contributes to neighbourhood character while expanding housing options for residents in a manner that is sensitive and complementary to existing development.*
    - *1.2 Increase the population within Established Neighbourhoods to contribute to the physical renewal and revitalization of older neighbourhoods.*
    - *1.5 Support up to mid-rise residential development in Established Neighbourhoods that is compatible with neighbourhood context.*

At two stories and less than 35' in height, the proposed building is considered a low-rise development under *CCDS 2.0* policies. The building will increase the population in this established neighbourhood and increase housing options for residents while positively contributing to the neighbourhood through design elements detailed under Goal 2.

- Goal 2 - *Design new development in Established Neighbourhoods to a high standard of urban design and construction to ensure new development adds value to public and private urban spaces to create a sense of place and civic pride.*

Building Setbacks

- *2.3 Encourage, where contextually suitable, the location of multi-family buildings at or near the front and corner side property lines to create a pedestrian orientation that is respectful of the area context. Use setbacks to provide landscaping, front courtyards for individual units or other amenities that support the pedestrian environment, building design and relationship to the street.*

The proposed building includes a 13’ front yard setback from the building foundation to the Garwood Avenue property line, and an 8’ front yard setback from the front porch and balcony to the Garwood Avenue property line. The building would also have a 6’ west side yard setback to Hugo St. N. and a 6'-6 ¾” east side yard setback to the abutting property. Together, these setbacks bring the building closer to the front and corner property lines. Simultaneously, the setbacks – when paired with the modest building height of just over 30’ – respects the area context which is predominantly one and two-storey buildings.

The north yard to Garwood Avenue, and the west yard to Hugo Street N, bring the building closer to the street. Typically, the Urban Planning and Design Division requires front yards to be within +/- 5’ of the average of abutting properties. This is intended to ensure new development respects the existing alignments along a developed block, that neighbouring developments are not significantly impacted by changes to the front yards, and that new development has some flexibility when being planned. In this case, the front yard to the primary building mass is within 4’ of the alignment, while the front yard to the balconies and porches is 9’ less than the alignment. While this is a larger setback than is typically supported, it is noteworthy that the setback enables larger outdoor space for residents, and that the balconies / porches are located on the west half of the front façade, away from the existing two-family dwelling to the east. This ensures that the main building wall maintains the required setback, while the projecting balcony and porch respects the existing development by being located away from it.

Building Design

- *2.4 Encourage the use of high-quality, energy efficient, and durable exterior building façade materials.*
- *2.5 Encourage a variety of architectural styles.*
- *2.6 Encourage building design to include a range of architectural features that create visual interest and positively contribute to the visual aesthetics of the street and neighbourhood.*

The proposed building includes cement siding and acrylic stucco, as well as 20% window coverage. In addition, the building includes full balconies and porches, along with entrances facing both streets that flank the building. Together, these features create visual interest that positively contributes to the aesthetics of both streets the building is located on.

Pedestrian orientation

- *2.9 Buildings with multi-unit residential uses should be designed to support pedestrian activity and reinforce the public realm through thoughtful use of architectural features which may include, but are not limited to, the following:*
  a. Window placement that supports passive surveillance;
  b. Unit entrances with direct access to the street;
  c. Front porches;
  d. Balconies;
  e. Awnings;
  f. Lighting; and
  g. Height of primary entrances

The proposed building includes ground floor entrances that provide access to both Garwood Avenue and Hugo Street N, balconies and porches that face Garwood Avenue and the rear lane, and significant window coverage that faces both streets. Together, these features promote the pedestrian orientation of the building.

Massing and scale

- *2.12 New development should respect and complement the existing character of the built form of surrounding properties.*
- *2.14 Avoid buildings that create long blank walls facing public streets.*
- *2.15 Encourage the use of architectural features to articulate building walls in order to mitigate the impact of new building mass.*

The proposed building height of two stories (approximately 30'-9 3/8" measured to the peak of the roof) is consistent with surrounding development, which includes both one and tow-storey development. It is notable that the proposed development is significantly under the maximum allowed height for either the “R1” or “R2” districts, which enable a building height of 35’ when measured to the midpoint of a roof.

The use of individual entrances, alternating building façade materials, significant window coverage, and balconies all break up the horizontal massing of the proposed building.

Parking and loading

- *2.16 For properties with public lane access, vehicular access should be taken from the public lane in order to:*
  a. Reduce potential conflict between pedestrians using sidewalks and motor vehicles crossing the public right-of-way to access private property;
  b. Preserve green space and protect existing trees that can be impacted by the establishment of front approaches and corresponding private driveways; and
  c. Prevent fragmentation of the public boulevard in order to better accommodate on-street motor vehicle parking and public snow clearing

The parking is accessed from the rear lane, with parking buffered from Hugo Street N by an opaque wood fence. Parking taken from the rear lane, rather than from a front drive aisle, reduces the risk of conflict between pedestrians and vehicles and preserves the existing green space along the public boulevard.

Site design

- *2.21 Site design should take cues from the character of the neighbourhood or street and should mitigate the potential for land use conflict with adjacent properties that have different scales, densities and uses. Parking location (motor vehicle and bicycle), vehicular access, servicing elements, building placement and landscaping treatment will be important design elements to ensure context-sensitive design.*
- *2.22 Create or reinforce compact, pedestrian-oriented urban development patterns by ensuring the siting, form and scale of new development has a strong relationship to the street, public spaces and amenities in a way that is consistent with neighbourhood context.*

As discussed, the proposed building height of two stories is similar to surrounding development, and paired with the 6'-6 ¾" east side yard ensures the new development mitigates the impact with the abutting house to the east.

SMALL SCALE AND LOW-RISE RESIDENTIAL DEVELOPMENT GUIDELINESS FOR MATURE COMMUNITIES

- The *Small Scale and Low-Rise Residential Development Guidelines for Mature Communities (Infill Guidelines)* were adopted by Council on June 24, 2021 and are applicable to this proposal.
- The proposed development meets the preferred location criteria contained in the *Infill Guidelines* to support a low-rise multi-family development. Specifically, the *Infill Guidelines* support low-rise development where:
    - The rear yard abuts a lane;
    - The site is located within 400 metres of the Primary Transit Network;
    - The property is a corner lot and the lane separates the rear yard from a commercial, multi-unit residential or non-residential use.

CONDITIONAL USE

- The Winnipeg Zoning By-law categorizes certain land uses as "conditional" due to their potential to pose impact on adjacent uses. The Conditional Use process enables the Public Service to undertake additional analysis and determine the suitability of a proposal.
- Conditional Uses are supported when they have demonstrated they are compatible with the existing development context and will not have any substantial adverse effects on the surrounding area.

CONDITIONS OF APPROVAL

Substantial conformance or Plan Approval

- Given the applicant has submitted site plans showing no changes to the existing site – and this is supportable - the Urban Planning Division has recommended a condition of substantial conformance with the plans submitted.
- If the applicant wished to deviate from the submitted plans, they would be required to submit new plans for approval by the Director of Planning Property and Development prior to obtaining building permits.

REASONS FOR DECISION

In the context of Section 247(3), the Urban Planning and Design Division recommends **approval** of the application for the following reasons:

(a) is consistent with *Plan Winnipeg* and any applicable secondary plan;

In that, the proposed Conditional Use will enable the establishment of a new multi-family residential development in alignment with the policies of OurWinnipeg 2045 and Complete Communities 2.0.

(b) does not create a substantial adverse effect on the amenities, use, safety and convenience of the adjoining property and adjacent area, including an area separated from the property by a street or waterway;

In that, the proposed development's setbacks and contextual design reduce potential impacts on adjacent uses.

(d) is compatible with the area in which the property to be affected is situated.

In that, *the* proposed building has been designed to blend into the existing area context by orienting the individual unit entrances to the two flanking streets, by maintaining a similar height to existing development on the block, and by incorporating design elements such as a pitched roof and porches that are comparable to other existing development in the area.

CONSULTATION

In preparing this report there was internal consultation with: N/A

OURWINNIPEG 2045 POLICY ALIGNMENT

OurWinnipeg Goal: City Building

Objective 1: Responsibly plan, prioritize and accommodate growth in areas that best support *Complete Communities* principles, to achieve this Plan's sustainable development goals.

- Facilitate growth and change strategically within Winnipeg's unique Transformative Areas and Established Neighbourhoods, to enhance the ability of the urban environment to contribute towards this Plan's goals.

Objective 2: Integrate resilient land use, transportation and infrastructure planning, and investments.

- Ensure that land use, transportation, and infrastructure planning are aligned to provide the conditions for compact, complete and connected communities, supported by sustainable transportation options and municipal infrastructure capacity.

Objective 3: Facilitate development opportunities that complete established communities, and plan new communities as complete and connected from the outset.

- New and existing communities are complete when they demonstrate: universally designed environments; mixed-income neighbourhoods; a continuum of housing types; multi-modal connections within and to elsewhere in the city; heritage conservation; opportunities for physical activity, social interaction, and access to health food, daily needs, employment, education, recreation, and green infrastructure.

Applicable Policies for Established Neighbourhoods – Mature Communities

6.1 Sustainable Urban Growth

- The City must accommodate physical development that reflects this Plan's goals, and achieves a continuum of complete and connected communities over the lifecycle of the Plan.

6.16 Established Neighbourhoods

- Designate Established Neighbourhoods within the Urban Structure, representing lands that will accommodate additional growth in a context-sensitive manner, while promoting the efficient use of land, cost-effective municipal servicing, enhanced housing choice and affordability, and conservation of green infrastructure and heritage resources and districts, as defined in Complete Communities.

6.44 Compatible Growth

- Plan for and protect green and built infrastructure and resources from incompatible development that would compromise achievement of this Plan's goals.

The proposed development aligns with *OurWinnipeg2045* in general because it would facilitate the development of a small-scale multi-family building in an area characterized by smaller-scale development including single-family dwellings and low-rise multi-family buildings.

WINNIPEG CLIMATE ACTION PLAN ALIGNMENT

Consideration was given as to whether this report connects to any of the specific Goals and Objectives in the *Winnipeg Climate Action Plan* (*WCAP*) and it was determined that the *WCAP* is not applicable to this specific report.

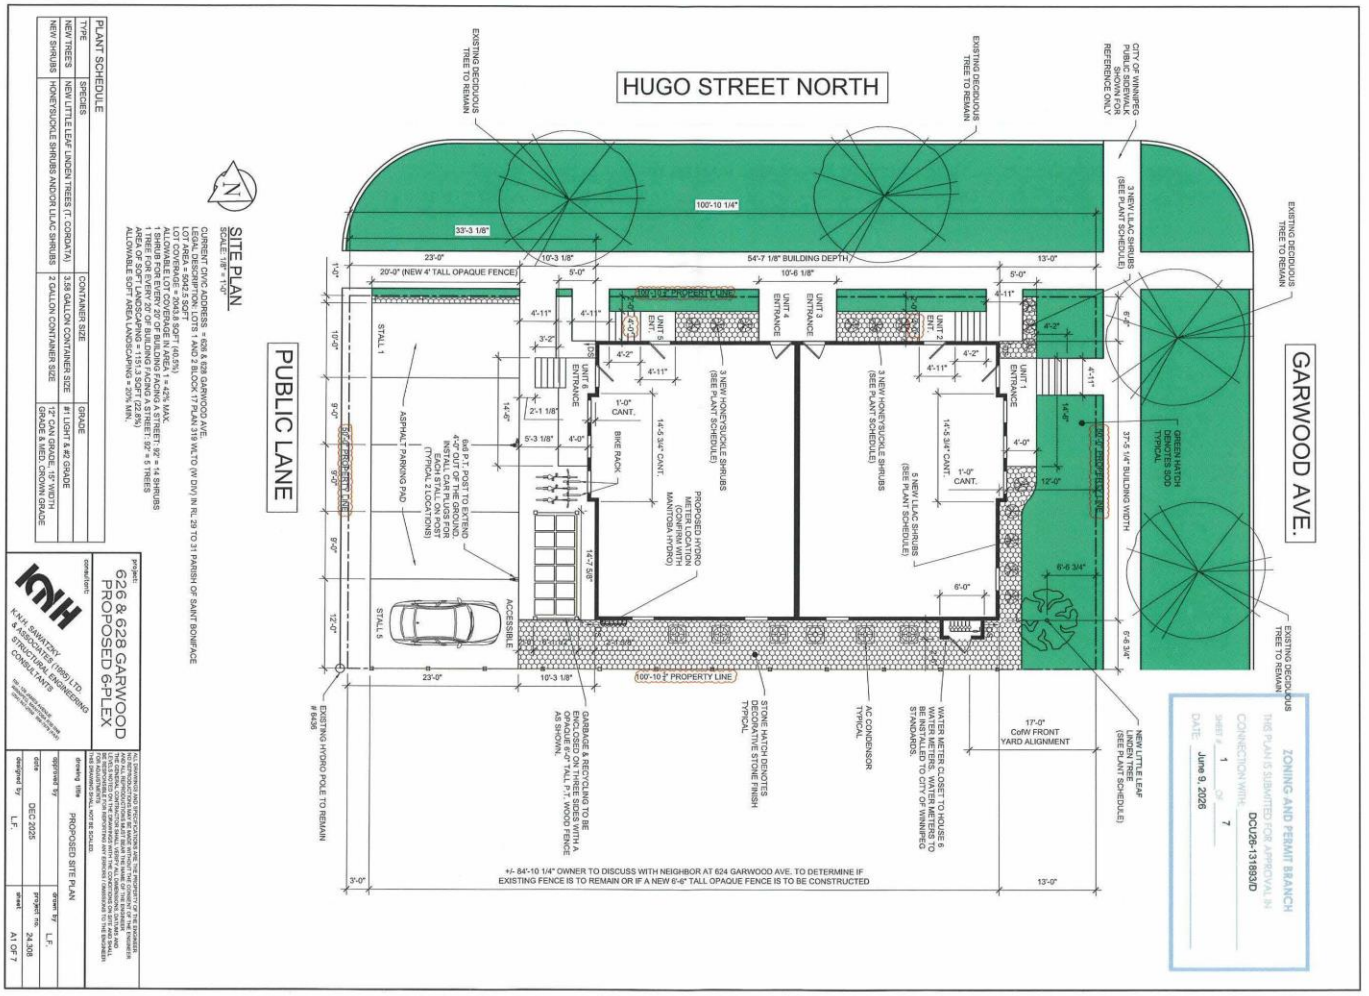

WINNIPEG POVERTY REDUCTION STRATEGY ALIGNMENT

Consideration was given to whether this report connects to any of the specific Goals and Objectives in the *PRS* and it was determined the *PRS* is not applicable to this specific report.
