I support the bulk of the changes proposed in this agenda item, but there is one proposed change to which I am opposed, specifically the combination of Route 641 with both feeder routes serving south Charleswood (223 and 885). I acknowledge that this was approved previously and apologize if it is too late to express my opposition. The stated goal of this route combination is to enhance connectivity to Oak Park High School. However, the route as proposed would turn from WB Rannock to SB Charleswood, missing all stops directly serving the school (the stops on Rannock are located west of the intersection, while the stop on Charleswood is located north of the intersection). This is confirmed by the map in Appendix C, which shows zero grey circles (representing stops) at the intersection itself - the nearest ones are 350 m (at Rannock & Municipal) and 450 m (at Charleswood & Hofsted) away. If it is possible to do so, I would suggest combining the 641 with the southern portion of the 885 (with a possible extension to Unicity Hub to maintain a connection between the 885-served portion of Charleswood and Portage Avenue service), while leaving the 223 as-is.

Public engagement (optional)

I consent to being contacted to participate in potential public engagement related to this matter.

No
