Minutes – Riel Community Committee – June 19, 2026

PUBLIC HEARINGS

Item No. 1 Rezoning – 470 Des Meurons Street
(St. Boniface Ward)
File DAZ 202/2026 [c/r DAV 116786/2026D]

COMMUNITY COMMITTEE RECOMMENDATION:

The Riel Community Committee concurred in the recommendation of the Winnipeg Public Service and recommended to the Standing Policy Committee on Property and Development:

1. That the Winnipeg Zoning By-law No. 200/2006 be amended under Development Application No. DAZ 202/2026 by rezoning the subject land to an "RMF-L Mature Communities PDO-1" Residential Multi-Family (Large) district in accordance with the proposed by-law attached as Appendix "A" to this report and as shown on the map dated June 2, 2026 and attached as Schedule "B" to this report, subject to the following conditions:

    A. That the owner of the subject land (the "Owner") enter into a Zoning Agreement with the City pursuant to subsection 240(1) of The City of Winnipeg Charter in accordance with the following:

        i. For those portions of the Owner's Land zoned "RMF-L" Residential Multi-Family (Large), the Owner must submit plans showing the location and design of any and all proposed:

            a. principal buildings;
            b. accessory parking areas;
            c. private approaches;
            d. garbage enclosures;
            e. fencing;
            f. landscaping; and
            g. free-standing signage

            on the Owner's Land ("Works") to the Director of Planning, Property and Development (the "Director") and the Riel Community Committee for approval prior to the issuance of any building or development permit, and thereafter must construct the Works in substantial conformance with the approved plans and maintain the Works to the satisfaction of the Director.

        ii. That the height of all buildings on the land shall be limited to 75 feet (22.86 metres).

COMMUNITY COMMITTEE RECOMMENDATION (continued):

B. That the Developer enter into a Servicing Agreement with the City pursuant to subsection 259(1) of The City of Winnipeg Charter in accordance with the report of the Administrative Coordinating Group dated May 19, 2026 and attached as Appendix "B" to this report.

C. That the City enter into, execute and deliver with the Developer

i. A Zoning Agreement in accordance with recommendation 1.A.; and

ii. A Servicing Agreement in accordance with recommendation 1.B., and such other agreements as determined necessary by the City Solicitor/Director of Legal Services to implement the intent of the foregoing (the "Ancillary Agreements").

D. That authority be delegated to the Director of Planning, Property and Development to negotiate and approve the terms and conditions of the Zoning Agreement, the Servicing Agreement and any Ancillary Agreements in accordance with this report and such other terms and conditions determined necessary by the City Solicitor/Director of Legal Services to protect the interests of the City.

2. That in lieu of the dedication of land, the developer shall provide a cash payment representing ten percent (10%) of the planned area value of the Development Application (the "Dedication Fee"), as determined by the City's Director of Planning, Property and Development.

3. That, upon instruction from the Director of Planning, Property and Development, the Director of Legal Services/City Solicitor prepare a by-law in accordance with Recommendation 1 (the "By-law") and bring same directly to Council by way of communication for first reading.

4. That upon instruction from the Director of Planning, Property and Development that the developer has paid all fees, charges or other amounts due in respect of DAZ 202/2026 (collectively, the "Fees"), and subject to s. 236.1 of The City of Winnipeg Charter, the Director of Legal Services/City Solicitor be directed to return the By-law directly to Council by way of communication for consideration for second and third reading.

COMMUNITY COMMITTEE RECOMMENDATION (continued):

5. That Development Application No. DAZ 202/2026 will be deemed to be concluded and all approvals in connection with same will expire if the developer has not paid the Fees within 2 years following the date on which Council gives first reading to the By-law, unless the developer applies for an extension of time before the expiration of that 2 year period and Council approves the extension.

6. That the By-law will come into force when the Zoning Agreement is fully executed and registered in the Winnipeg Land Titles Office by way of caveat against the lands described therein.

7. That the By-law will be repealed without coming into force 1 year following the date it is enacted if the Zoning Agreement is not registered in accordance with Recommendation 6, unless the Developer applies for an extension of time before the expiration of that 1 year period and Council approves the extension.

8. That the Variance Order shall come into force and effect upon the coming into force and effect of the zoning by-law for the subject land under File No. DAZ 202/2026.

9. That the Proper Officers of the City be authorized to do all things necessary to implement the intent of the foregoing

DECISION MAKING HISTORY:

The Winnipeg Public Service advised that all statutory requirements with respect to this application have been complied with.

Moved by Councillor Allard,
That the reports of the Winnipeg Public Service be taken as read.

Carried

Moved by Councillor Allard,
That the receipt of public representations be concluded.

Carried

Moved by Councillor Allard,
That the recommendation of the Winnipeg Public Service be concurred in, and forwarded to the Standing Policy Committee on Property and Development.

Supporting Reasons:

1. I think most of the people who had feedback were in favour of housing, and I think most of the feedback was in terms of by-laws and variances. I think the rezoning is something that would be appropriate given what we've heard.

2. What we're voting on right now is about land use, and what it would be zoned for. I'm in favour of the Public Service recommendation to allow for the rezoning from industrial to RMFL for this purpose.

3. The City is in need of housing. It's a situation not only for our city, but cities right across Canada. Having been in Edmonton last week for the Federation of Canadian Municipalities, it was the topic of conversation for all major cities in terms of having enough housing for the population. I am supportive of rezoning this from industrial use to RMFL.

4. I feel like I've argued with Brent Bellamy for 15 years, and here we are on the same page on something.

DECISION MAKING HISTORY (continued):

COMMUNITY COMMITTEE DECISION:

5. Frankly, if this was a six-storey building being proposed in the middle of Gabourey Place, I would say no. That's not appropriate. That's in the middle of the block. But this is on Des Meurons, which is a more major street and has transit.

6. I think if you're looking to rezone, there's a balance. Theres a balance between needing more housing, but it shouldn't be density at any cost. You have to respect the existing neighbours. Very good report written by Mr. Nuttall trying to balance out these competing concerns.

7. I think the rezoning makes sense in this context. To have some residential development that is on a more major street.

8. I don't think six stories is a high-rise. I don't think its massive. Some of the stuff we're doing on the corridors; St. Anne's, St. Mary's, that's going to be a whole lot taller than this. For all those reasons I support the rezoning.

Carried

Moved by Councillor Allard,

That the public hearing with respect to this application be concluded.

Carried

COMMUNITY COMMITTEE DECISION:

On June 2, 2026, the Riel Community Committee did not hear any representations on the application and adjourned the public hearing to a special meeting on Friday, June 19, 2026, at 10:30 a.m. in the Council Building at 510 Main Street.

PUBLIC HEARING SUMMARY

Premises Affected: 470 Des Meurons Street

For submission to: The Standing Policy Committee on Property and Development

Prepared by: Rebecca Ford, Committee Clerk
Riel Community Committee

Report date: June 19, 2026

Community Committee Recommendation:

On June 19, 2026, the Riel Community Committee concurred in the recommendation of the Winnipeg Public Service and recommended to the Standing Policy Committee on Property and Development:

1. That the Winnipeg Zoning By-law No. 200/2006 be amended under Development Application No. DAZ 202/2026 by rezoning the subject land to an "RMF-L Mature Communities PDO-1" Residential Multi-Family (Large) district in accordance with the proposed by-law attached as Appendix "A" to this report and as shown on the map dated June 2, 2026 and attached as Schedule "B" to this report, subject to the following conditions:

    A. That the owner of the subject land (the "Owner") enter into a Zoning Agreement with the City pursuant to subsection 240(1) of The City of Winnipeg Charter in accordance with the following:

        i. For those portions of the Owner's Land zoned "RMF-L" Residential Multi-Family (Large), the Owner must submit plans showing the location and design of any and all proposed:

            a. principal buildings;
            b. accessory parking areas;
            c. private approaches;
            d. garbage enclosures;
            e. fencing;
            f. landscaping; and
            g. free-standing signage

            on the Owner's Land ("Works") to the Director of Planning, Property and Development (the "Director") and the Riel Community Committee for approval prior to the issuance of any building or development permit, and thereafter must construct the Works in substantial conformance with the approved plans and maintain the Works to the satisfaction of the Director.

        ii. That the height of all buildings on the land shall be limited to 75 feet (22.86 metres).

B. That the Developer enter into a Servicing Agreement with the City pursuant to subsection 259(1) of The City of Winnipeg Charter in accordance with the report of the Administrative Coordinating Group dated May 19, 2026 and attached as Appendix “B” to this report.

C. That the City enter into, execute and deliver with the Developer

i. A Zoning Agreement in accordance with recommendation 1.A.; and

ii. A Servicing Agreement in accordance with recommendation 1.B., and such other agreements as determined necessary by the City Solicitor/Director of Legal Services to implement the intent of the foregoing (the "Ancillary Agreements").

D. That authority be delegated to the Director of Planning, Property and Development to negotiate and approve the terms and conditions of the Zoning Agreement, the Servicing Agreement and any Ancillary Agreements in accordance with this report and such other terms and conditions determined necessary by the City Solicitor/Director of Legal Services to protect the interests of the City.

2. That in lieu of the dedication of land, the developer shall provide a cash payment representing ten percent (10%) of the planned area value of the Development Application (the “Dedication Fee”), as determined by the City’s Director of Planning, Property and Development.

3. That, upon instruction from the Director of Planning, Property and Development, the Director of Legal Services/City Solicitor prepare a by-law in accordance with Recommendation 1 (the “By-law”) and bring same directly to Council by way of communication for first reading.

4. That upon instruction from the Director of Planning, Property and Development that the developer has paid all fees, charges or other amounts due in respect of DAZ 202/2026 (collectively, the “Fees”), and subject to s. 236.1 of The City of Winnipeg Charter, the Director of Legal Services/City Solicitor be directed to return the By-law directly to Council by way of communication for consideration for second and third reading.

5. That Development Application No. DAZ 202/2026 will be deemed to be concluded and all approvals in connection with same will expire if the developer has not paid the Fees within 2 years following the date on which Council gives first reading to the By-law, unless the developer applies for an extension of time before the expiration of that 2 year period and Council approves the extension.

6. That the By-law will come into force when the Zoning Agreement is fully executed and registered in the Winnipeg Land Titles Office by way of caveat against the lands described therein.

7. That the By-law will be repealed without coming into force 1 year following the date it is enacted if the Zoning Agreement is not registered in accordance with Recommendation 6, unless the Developer applies for an extension of time before the expiration of that 1 year period and Council approves the extension.

8. That the Variance Order shall come into force and effect upon the coming into force and effect of the zoning by-law for the subject land under File No. DAZ 202/2026.

9. That the Proper Officers of the City be authorized to do all things necessary to implement the intent of the foregoing

The Riel Community Committee provided the following supporting reasons for its recommendation:

1. I think most of the people who had feedback were in favour of housing, and I think most of the feedback was in terms of by-laws and variances. I think the rezoning is something that would be appropriate given what we've heard.

2. What we're voting on right now is about land use, and what it would be zoned for. I'm in favour of the Public Service recommendation to allow for the rezoning from industrial to RMFL for this purpose.

3. The City is in need of housing. It's a situation not only for our city, but cities right across Canada. Having been in Edmonton last week for the Federation of Canadian Municipalities, it was the topic of conversation for all major cities in terms of having enough housing for the population. I am supportive of rezoning this from industrial use to RMFL.

4. I feel like I've argued with Brent Bellamy for 15 years, and here we are on the same page on something.

5. Frankly, if this was a six-storey building being proposed in the middle of Gabourey Place, I would say no. That's not appropriate. That's in the middle of the block. But this is on Des Meurons, which is a more major street and has transit.

6. I think if you're looking to rezone, there's a balance. Theres a balance between needing more housing, but it shouldn't be density at any cost. You have to respect the existing neighbours. Very good report written by Mr. Nuttall trying to balance out these competing concerns.

7. I think the rezoning makes sense in this context. To have some residential development that is on a more major street.

8. I don't think six stories is a high-rise. I don't think its massive. Some of the stuff we're doing on the corridors; St. Anne's, St. Mary's, that's going to be a whole lot taller than this. For all those reasons I support the rezoning.

Objections under the Charter:

Total number of **v**alid objections as per section 125(2) – 978

In accordance with section 236.1(1), the threshold for sufficient objection has been met.

RECOMMENDATIONS

1. That the Winnipeg Zoning By-law No. 200/2006 be amended under Development Application No. DAZ 202/2026 by rezoning the subject land to an “RMF-L Mature Communities PDO-1” Residential Multi-Family (Large) district in accordance with the proposed by-law attached as Appendix “A” to this report and as shown on the map dated June 2, 2026 and attached as Schedule “B” to this report, subject to the following conditions:

A. That the owner of the subject land (the “Owner”) enter into a Zoning Agreement with the City pursuant to subsection 240(1) of The City of Winnipeg Charter in accordance with the following:

i. For those portions of the Owner’s Land zoned “RMF-L” Residential Multi-Family (Large), the Owner must submit plans showing the location and design of any and all proposed:

- principal buildings;
- accessory parking areas;
- private approaches;
- garbage enclosures;

- fencing;
- landscaping; and
- free-standing signage

on the Owner's Land ("Works") to the Director of Planning, Property and Development (the "Director") and the Riel Community Committee for approval prior to the issuance of any building or development permit, and thereafter must construct the Works in substantial conformance with the approved plans and maintain the Works to the satisfaction of the Director.

ii. That the height of all buildings on the land shall be limited to 75 feet (22.86 metres).

B. That the Developer enter into a Servicing Agreement with the City pursuant to subsection 259(1) of The City of Winnipeg Charter in accordance with the report of the Administrative Coordinating Group dated May 19, 2026 and attached as Appendix "B" to this report.

C. That the City enter into, execute and deliver with the Developer

(i) a Zoning Agreement in accordance with recommendation 1.A.; and

(ii) a Servicing Agreement in accordance with recommendation 1.B.,

and such other agreements as determined necessary by the City Solicitor/Director of Legal Services to implement the intent of the foregoing (the "Ancillary Agreements").

D. That authority be delegated to the Director of Planning, Property and Development to negotiate and approve the terms and conditions of the Zoning Agreement, the Servicing Agreement and any Ancillary Agreements in accordance with this report and such other terms and conditions determined necessary by the City Solicitor/Director of Legal Services to protect the interests of the City.

2. That, in lieu of the dedication of land, the developer shall provide a cash payment representing ten percent (10%) of the planned area value of the Development Application (the "Dedication Fee"), as determined by the City's Director of Planning, Property and Development.

3. That, upon instruction from the Director of Planning, Property and Development, the Director of Legal Services/City Solicitor prepare a by-law in accordance with recommendation 1 (the "By-law") and bring same directly to Council by way of communication for first reading.

4. That, upon instruction from the Director of Planning, Property and Development that the developer has paid all fees, charges or other amounts due in respect of DAZ 202/2026 (collectively, the "Fees"), and subject to s. 236.1 of The City of Winnipeg Charter, the Director of Legal Services/City Solicitor be directed to return the By-law directly to Council by way of communication for consideration for second and third reading.

5. That Development Application No. DAZ 202/2026 will be deemed to be concluded and all approvals in connection with same will expire if the developer has not paid the Fees within 2 years following the date on which Council gives first reading to the By-law, unless the developer applies for an extension of time before the expiration of that 2 year period and Council approves the extension.

6. That the By-law will come into force when the Zoning Agreement is fully executed and registered in the Winnipeg Land Titles Office by way of caveat against the lands described therein.

7. That the By-law will be repealed without coming into force 1 year following the date it is enacted if the Zoning Agreement is not registered in accordance with recommendation 6, unless the developer applies for an extension of time before the expiration of that 1 year period and Council approves the extension.

8. That the Variance Order shall come into force and effect upon the coming into force and effect of the zoning by-law for the subject land under File No. DAZ 202/2026.

9. That the proper officers of the City be authorized to do all things necessary to implement the intent of the foregoing

REASON FOR THE REPORT

- The applicant wishes to rezone the subject property to the “RMF-L” Residential Multi-Family (Large) district for the purpose of a 120-unit multi-family residential building.
- Rezoning applications require a Public Hearing per the *Development Procedures By-law* and *The City of Winnipeg Charter.*
- This report is being submitted for the Committee’s consideration of the development application at the Public Hearing.

IMPLICATIONS OF THE RECOMMENDATIONS

If the recommendations of the Urban Planning Division are concurred in, the land will be **Rezoned.**

RELATED FILES:	DAV 26-116786\D
COMMUNITY:	Riel
NEIGHBOURHOOD #:	5.502 - (CENTRAL ST. BONIFACE)

SUBJECT: To rezone the subject property to the "RMF-L Mature Communities PDO-1" Residential Multi-Family (Large) district for the purpose of constructing a 120-unit residential multi-family building and accessory parking area.

LOCATION: **470 Des Meurons**

LEGAL DESCRIPTION: LOT 1/2 PLAN 20105 80 ST B

APPLICANT: Jonathon Freed (Freedhome Developments Ltd.)
207-230 Main St
Winnipeg, MB R2X 2Y1

OWNER: OVERHEAD DOOR OF WINNIPEG LTD
470 Des Meurons St
Winnipeg, MB R2H 2P4

RECOMMENDATION: **Approval with conditions**

SITE DESCRIPTION

- The subject property is located on Des Meurons St, in the Central St. Boniface neighbourhood of the St Boniface ward.
- The subject site is 41,389 square feet (3,845 square metres) in area. The site is currently occupied by a commercial building.
- The subject site is accessed by approaches on Des Meurons and Gaboury Place.
- Under the *Complete Communities Direction Strategy 2.0*, the site is within the Established Neighbourhoods – Mature Communities policy area. The property is zoned "M1" Manufacturing - Light district.

Figure 1: Aerial Photo of Subject Site and Surrounding Uses (flown 2024).

SURROUNDING LAND USE AND ZONING (See Figure 2)

North: Manufacturing/industrial uses on land zoned "M1" Manufacturing – Light district.
South: Residential uses on land zoned "R2" Residential Two-Family district.
East: Manufacturing/industrial uses on land zoned "M1" Manufacturing – Light district.
West: Des Meurons, then residential uses on land zoned "R2" Residential Two-Family district.

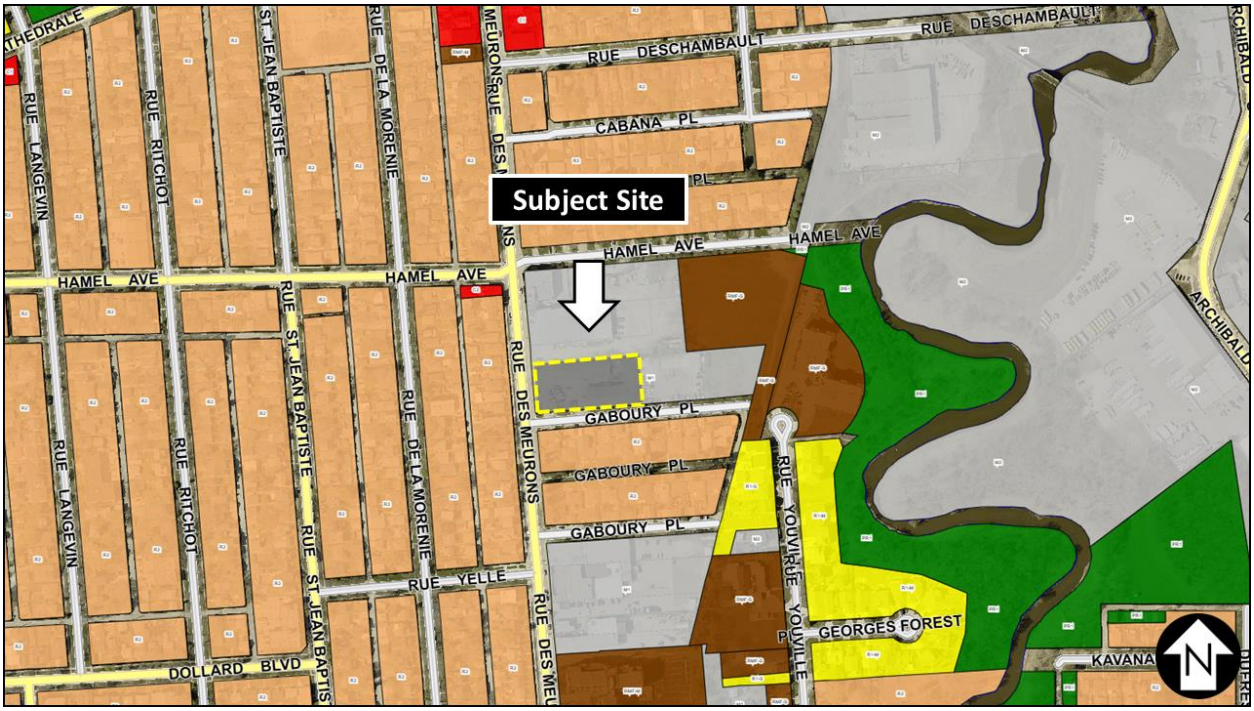

Figure 2: Zoning of the subject site and surrounding area.

DESCRIPTION OF THE PROPOSED DEVELOPMENT

- The applicant intends to construct a six-storey residential building.
- The existing commercial building(s) on site will be demolished.
- The building features 120 rental units:
    - 65 one-bedroom units
    - 50 two-bedroom units
    - 5 three-bedroom units
    - According to the Letter of Intent, 10% of these units will be affordable as defined by Manitoba Housing's Affordable housing Rental Program.
- The submitted site plan shows that the proposed building will be 122.2 feet (37.2 metres) in width, 278.8 feet (85.0 metres) in length, and 69.3 feet (21.1 metres) in height (74.2 feet [22.6 metres] to the parapet).
- 105 of the 120 required parking spaces are provided as follows:
    - 53 spaces will be enclosed and heated, including 5 accessible stalls
    - 29 surface parking spaces designated for small cars on the north side of the building
    - 23 surface parking spaces on the south side of the building.
- 36 bicycle parking spaces are provided, exceeding the minimum requirement of 12 spaces. This includes 4 outdoor spaces and 32 indoor spaces.
- Access will be provided on the south side of the property from Gaboury Place.
- Landscaping:

- 0 trees and 5 shrubs have been provided along the Gaboury street edge, below the required minimum of 1 tree per 30 feet of frontage and 3 shrubs per 20 feet of frontage.
- None of the required street edge landscaping has been provided on Des Meurons.
- None of the required parking lot interior landscaping has been provided.
- A 6-foot tall brown treated opaque wood fence has been provided.

- An Alternative Equivalence Compliance approval is required for semi-recessed waste bins, which the Public Service supports.

Collaboration with the Public Service:

With the Urban Planning and Design Division

The applicant engaged with the Urban Planning and Design Division during the application process.

With the Public

The applicant held a virtual information session for residents and has included signatures of support with this application.

ANALYSIS AND ISSUES

OurWinnipeg Goal: City Building

Objective 1: Responsibly plan, prioritize and accommodate growth in areas that best support *Complete Communities* principles, to achieve this Plan's sustainable development goals.

- Facilitate growth and change strategically within Winnipeg's unique Transformative Areas and Established Neighbourhoods, to enhance the ability of the urban environment to contribute towards this Plan's goals.

Objective 2: Integrate resilient land use, transportation and infrastructure planning, and investments.

- Ensure that land use, transportation, and infrastructure planning are aligned to provide the conditions for compact, complete and connected communities, supported by sustainable transportation options and municipal infrastructure capacity.

Objective 3: Facilitate development opportunities that complete established communities, and plan new communities as complete and connected from the outset.

- New and existing communities are complete when they demonstrate: universally designed environments; mixed-income neighbourhoods; a continuum of housing types; multi-modal connections within and to elsewhere in the city; heritage conservation; opportunities for physical activity, social interaction, and access to health food, daily needs, employment, education, recreation, and green infrastructure.

Applicable Policies for Established Neighbourhoods – Mature Communities

6.1 Sustainable Urban Growth

- The City must accommodate physical development that reflects this Plan's goals, and achieves a continuum of complete and connected communities over the lifecycle of the Plan.

6.16 Established Neighbourhoods

- Designate Established Neighbourhoods within the Urban Structure, representing lands that will accommodate additional growth in a context-sensitive manner, while promoting the efficient use of land, cost-effective municipal servicing, enhanced housing choice and affordability, and conservation of green infrastructure and heritage resources and districts, as defined in Complete Communities.

6.44 Compatible Growth

- Plan for and protect green and built infrastructure and resources from incompatible development that would compromise achievement of this Plan's goals.

The proposed development is generally aligned with *OurWinnipeg* because it would facilitate residential infill development in a mature community, utilize existing infrastructure, and help meet intensification targets.

COMPLETE COMMUNITIES DIRECTION STRATEGY 2.0

The *Complete Communities Direction Strategy 2.0* supports *OurWinnipeg 2045*, the City's long-range development plan, and has statutory authority as a secondary plan. The strategy guides land use and development in Winnipeg.

The property is located in an Established Neighbourhood – Mature Community policy area of *CCDS 2.0*. Certain goals and policies of *CCDS 2.0* apply to the proposal.

- Goal 1 - *Encourage compatible residential development within Established Neighbourhoods to build more Complete Communities and align with the City's residential intensification target.*

  General policies

  - *1.1 Encourage residential development that positively contributes to neighbourhood character while expanding housing options for residents in a manner that is sensitive and complementary to existing development.*
  - *1.2 Increase the population within Established Neighbourhoods to contribute to the physical renewal and revitalization of older neighbourhoods.*
  - *1.5 Support up to mid-rise residential development in Established Neighbourhoods that is compatible with neighbourhood context.*
  - *1.7 Mid-rise residential uses will generally be accommodated on arterial streets where compatible with adjacent land uses, where they can be conveniently served by transit and local commercial amenities, and in consideration of the factors listed in Policy section 1.6.*

At six stories, the proposed building is considered a medium-rise development under *CCDS 2.0* policies. The building will increase the population in this established neighbourhood and increase housing options for residents while positively contributing to the neighbourhood through design elements detailed under Goal 2.

- Goal 2 - *Design new development in Established Neighbourhoods to a high standard of urban design and construction to ensure new development adds value to public and private urban spaces to create a sense of place and civic pride.*

  <u>Building Setbacks</u>

  - *2.3 Encourage, where contextually suitable, the location of multi-family buildings at or near the front and corner side property lines to create a pedestrian orientation that is respectful of the area context. Use setbacks to provide landscaping, front courtyards for individual units or other amenities that support the pedestrian environment, building design and relationship to the street.*

The applicant has requested Variances to reduce building setbacks on all four required yards: The requested front yard is zero feet. The Public Service is recommending a front yard setback of 10 feet to provide landscaping and support a more comfortable pedestrian environment. See example of 400 Des Meurons in Figure 3, a six-storey building which is setback approximately 20 feet from the front property line on the north corner, and includes shrubs and mature street trees for the length of the property.

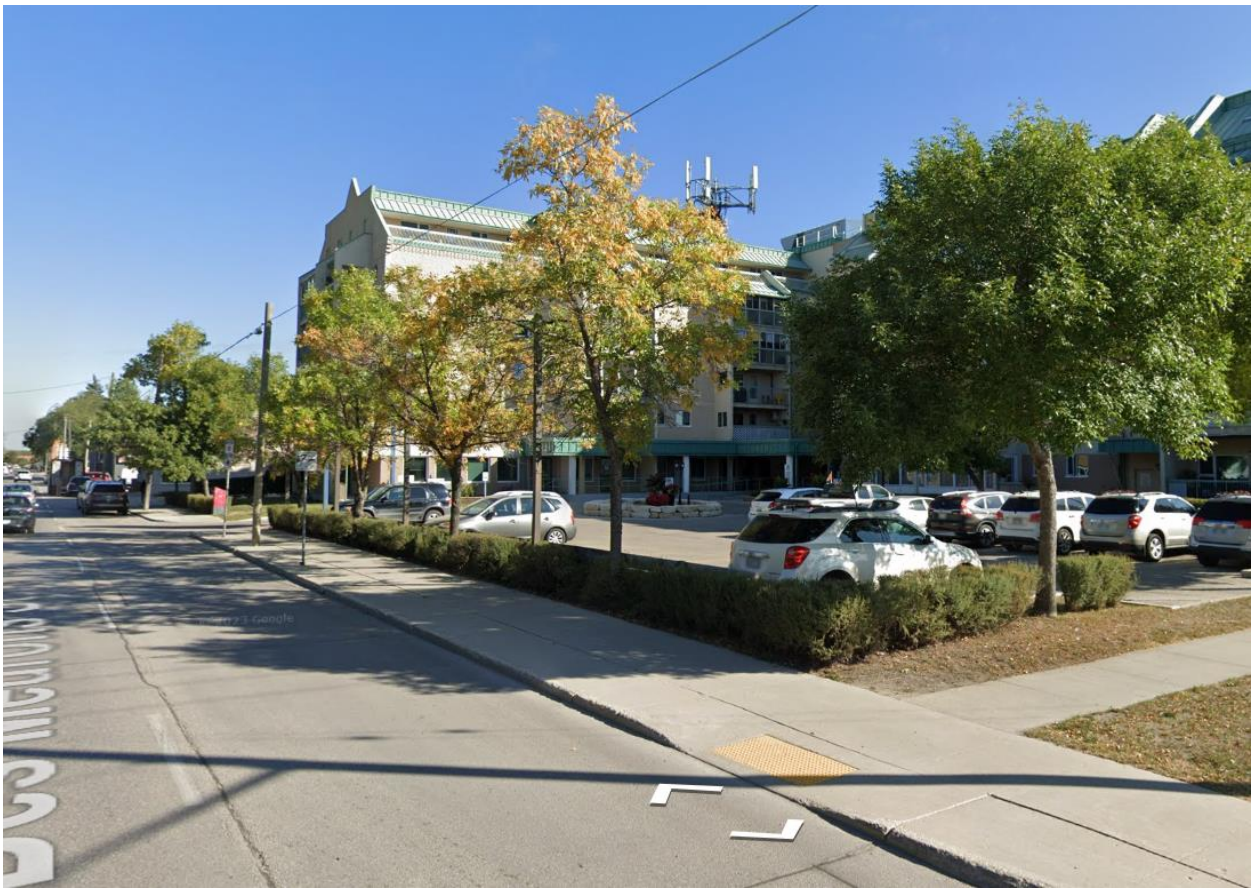

Figure 3: Streetview Photo of 400 Des Meurons (via Google)

Variances are requested for both side yards (8 feet on the north side and 6 feet on the south side). These Variances are recommended for approval as they represent a small fraction of the overall building length, which is largely setback beyond the minimum requirement. The rear yard setback is only a reduction of 5 feet, which is considered supportable.

Building Design

- *2.4 Encourage the use of high-quality, energy efficient, and durable exterior building façade materials.*
- *2.5 Encourage a variety of architectural styles.*
- *2.6 Encourage building design to include a range of architectural features that create visual interest and positively contribute to the visual aesthetics of the street and neighbourhood.*

The proposed building façade includes a mixture of brick cladding, fibre cement/stucco siding, and metal cladding to create a visually interesting design that incorporates arches and insets for balconies on the front. The sides of the structure include significant window coverage and balconies. Features from the front of the building are continued around the corner on the south side. Together, these features create visual interest that positively contribute to aesthetics of the street.

Pedestrian orientation

- *2.9 Buildings with multi unit residential uses should be designed to support pedestrian activity and reinforce the public realm through thoughtful use of architectural features which may include, but are not limited to, the following:*
  - *a. Window placement that supports passive surveillance;*
  - *b. Unit entrances with direct access to the street;*
  - *c. Front porches;*
  - *d. Balconies;*
  - *e. Awnings;*
  - *f. Lighting; and*
  - *g. Height of primary entrances*

The proposed building includes ground floor entrances on Des Meurons. Balconies are located on the front and side of the building to support passive surveillance. The location of the resident amenity space on the southwest corner of the building helps create an active use in the absence of commercial space.

Massing and scale

- *2.12 New development should respect and complement the existing character of the built form of surrounding properties.*
- *2.14 Avoid buildings that create long blank walls facing public streets.*
- *2.15 Encourage the use of architectural features to articulate building walls in order to mitigate the impact of new building mass.*

This property is located on a large lot uncharacteristic of nearby residential properties, which tend to be 1-4 unit residential dwellings. This allows for a higher density development than what is typical for adjacent residential. As noted above, Des Meurons is an arterial street, and CCDS 2.0 allows for mid-rise (5 to 8 storeys) residential developments to be located on arterial streets in mature communities. Elements of the building, such as the majority of the building bulk being setback significantly from the side yards, account for the difference in built form to the south of the site while respecting existing uses abutting to the north and east.

Parking and loading

- *2.16 For properties with public lane access, vehicular access should be taken from the public lane in order to:*

  a. Reduce potential conflict between pedestrians using sidewalks and motor vehicles crossing the public right-of-way to access private property;

  b. Preserve green space and protect existing trees that can be impacted by the establishment of front approaches and corresponding private driveways; and

  c. Prevent fragmentation of the public boulevard in order to better accommodate on-street motor vehicle parking and public snow clearing

The parking area is accessed from the rear lane on the south side of the building off of Gaboury Place, which serves as the public lane for the residential properties to the south. The existing approach on Des Meurons will be removed. Per the ACG report, the Developer is responsible for constructing a sidewalk along the north side of Gaboury Place abutting the planned area.

Site design

- *2.21 Site design should take cues from the character of the neighbourhood or street and should mitigate the potential for land use conflict with adjacent properties that have different scales, densities and uses. Parking location (motor vehicle and bicycle), vehicular access, servicing elements, building placement and landscaping treatment will be important design elements to ensure context-sensitive design.*
- *2.22 Create or reinforce compact, pedestrian-oriented urban development patterns by ensuring the siting, form and scale of new development has a strong relationship to the street, public spaces and amenities in a way that is consistent with neighbourhood context.*

While the rezoning to “RMF-L” Residential Multi-Family (Large) district is supported, the requested density Variance has not been recommended for approval. Consequentially, the requested parking Variance and zero-foot front yard setback are not supported either. These recommendations from the Public Service will guide the building design toward a scale more appropriate for the surrounding context.

ZONING BY-LAW 200/2006

- The “RMF-L” Residential Multi-Family (Large) district is intended for larger-scale multi-family development, such as mid-to-high rise multi-unit buildings.
- The subject site is located on the corner of an arterial street and a public lane.
- The proposed multi-family development can be accommodated in the “RMF-L” Residential Multi-Family (Large) district.

ADDITIONAL CONSIDERATIONS

Zoning Agreement

- Given that the proposed building will need to be changed if recommended modifications to the Variances are supported, a condition requiring plan approval to the Director of Planning, Property and Development and Riel Community Committee has been included.

SUMMARY

The Urban Planning Division recommends **approval** for the following reasons:

- The rezoning will result in the establishment of a multi-family development that is consistent with policies in *OurWinnipeg 2045* and *Complete Communities 2.0*.

RECOMMENDATION

The Urban Planning Division recommends this application be **approved** and the subject property be Rezoned to the “RMF-L Mature Communities PDO-1” Residential Multi-Family (Large) district.

RECOMMENDATIONS

1. That the Winnipeg Zoning By-law No. 200/2006 be amended under Development Application No. DAZ 202/2026 by rezoning the subject land to an “RMF-L Mature Communities PDO-1” Residential Multi-Family (Large) district in accordance with the proposed by-law attached as Appendix “A” to this report and as shown on the map dated June 2, 2026 and attached as Schedule “B” to this report, subject to the following conditions:

A. That the owner of the subject land (the “Owner”) enter into a Zoning Agreement with the City pursuant to subsection 240(1) of The City of Winnipeg Charter in accordance with the following:

i. For those portions of the Owner’s Land zoned “RMF-L” Residential Multi-Family (Large), the Owner must submit plans showing the location and design of any and all proposed:

- principal buildings;
- accessory parking areas;
- private approaches;
- garbage enclosures;

- fencing;
- landscaping; and
- free-standing signage

on the Owner's Land ("Works") to the Director of Planning, Property and Development (the "Director") and the Riel Community Committee for approval prior to the issuance of any building or development permit, and thereafter must construct the Works in substantial conformance with the approved plans and maintain the Works to the satisfaction of the Director.

ii. That the height of all buildings on the land shall be limited to 75 feet (22.86 metres).

B. That the Developer enter into a Servicing Agreement with the City pursuant to subsection 259(1) of The City of Winnipeg Charter in accordance with the report of the Administrative Coordinating Group dated May 19, 2026 and attached as Appendix "B" to this report.

C. That the City enter into, execute and deliver with the Developer

(i) a Zoning Agreement in accordance with recommendation 1.A.; and

(ii) a Servicing Agreement in accordance with recommendation 1.B.,

and such other agreements as determined necessary by the City Solicitor/Director of Legal Services to implement the intent of the foregoing (the "Ancillary Agreements").

D. That authority be delegated to the Director of Planning, Property and Development to negotiate and approve the terms and conditions of the Zoning Agreement, the Servicing Agreement and any Ancillary Agreements in accordance with this report and such other terms and conditions determined necessary by the City Solicitor/Director of Legal Services to protect the interests of the City.

3. That, in lieu of the dedication of land, the developer shall provide a cash payment representing ten percent (10%) of the planned area value of the Development Application (the "Dedication Fee"), as determined by the City's Director of Planning, Property and Development.

3. That, upon instruction from the Director of Planning, Property and Development, the Director of Legal Services/City Solicitor prepare a by-law in accordance with recommendation 1 (the "By-law") and bring same directly to Council by way of communication for first reading.

4. That, upon instruction from the Director of Planning, Property and Development that the developer has paid all fees, charges or other amounts due in respect of DAZ 202/2026 (collectively, the "Fees"), and subject to s. 236.1 of The City of Winnipeg Charter, the Director of Legal Services/City Solicitor be directed to return the By-law directly to Council by way of communication for consideration for second and third reading.

5. That Development Application No. DAZ 202/2026 will be deemed to be concluded and all approvals in connection with same will expire if the developer has not paid the Fees within 2 years following the date on which Council gives first reading to the By-law, unless the developer applies for an extension of time before the expiration of that 2 year period and Council approves the extension.

6. That the By-law will come into force when the Zoning Agreement is fully executed and registered in the Winnipeg Land Titles Office by way of caveat against the lands described therein.

7. That the By-law will be repealed without coming into force 1 year following the date it is enacted if the Zoning Agreement is not registered in accordance with recommendation 6, unless the developer applies for an extension of time before the expiration of that 1 year period and Council approves the extension.

8. That the Variance Order shall come into force and effect upon the coming into force and effect of the zoning by-law for the subject land under File No. DAZ 202/2026.

9. That the proper officers of the City be authorized to do all things necessary to implement the intent of the foregoing

REASON FOR THE REPORT

- The applicant wishes to rezone the subject property to the “RMF-L” Residential Multi-Family (Large) district for the purpose of a 120-unit multi-family residential building.
- Rezoning applications require a Public Hearing per the *Development Procedures By-law* and *The City of Winnipeg Charter.*
- This report is being submitted for the Committee’s consideration of the development application at the Public Hearing.

IMPLICATIONS OF THE RECOMMENDATIONS

If the recommendations of the Urban Planning Division are concurred in, the land will be **Rezoned.**

COMMUNITY:	Riel
NEIGHBOURHOOD #:	5.502 - (CENTRAL ST. BONIFACE)
SUBJECT:	To rezone the subject property to the "RMF-L Mature Communities PDO-1" Residential Multi-Family (Large) district for the purpose of constructing a 120-unit residential multi-family building and accessory parking area.

LOCATION: **470 Des Meurons**

LEGAL DESCRIPTION: LOT 1/2 PLAN 20105 80 ST B

APPLICANT: Jonathon Freed (Freedhome Developments Ltd.)
207-230 Main St
Winnipeg, MB R2X 2Y1

OWNER: OVERHEAD DOOR OF WINNIPEG LTD
470 Des Meurons St
Winnipeg, MB R2H 2P4

RECOMMENDATION: **Approval with conditions**

SITE DESCRIPTION

- The subject property is located on Des Meurons St, in the Central St. Boniface neighbourhood of the St Boniface ward.
- The subject site is 41,389 square feet (3,845 square metres) in area. The site is currently occupied by a commercial building.
- The subject site is accessed by approaches on Des Meurons and Gaboury Place.
- Under the *Complete Communities Direction Strategy 2.0*, the site is within the Established Neighbourhoods – Mature Communities policy area. The property is zoned “M1” Manufacturing - Light district.

Figure 3: Aerial Photo of Subject Site and Surrounding Uses (flown 2024).

SURROUNDING LAND USE AND ZONING (See Figure 2)

North: Manufacturing/industrial uses on land zoned “M1” Manufacturing – Light district.
South: Residential uses on land zoned “R2” Residential Two-Family district.
East: Manufacturing/industrial uses on land zoned “M1” Manufacturing – Light district.
West: Des Meurons, then residential uses on land zoned “R2” Residential Two-Family district.

Figure 4: Zoning of the subject site and surrounding area.

DESCRIPTION OF THE PROPOSED DEVELOPMENT

- The applicant intends to construct a six-storey residential building.
- The existing commercial building(s) on site will be demolished.
- The building features 120 rental units:
    - 65 one-bedroom units
    - 50 two-bedroom units
    - 5 three-bedroom units
    - According to the Letter of Intent, 10% of these units will be affordable as defined by Manitoba Housing's Affordable housing Rental Program.
- The submitted site plan shows that the proposed building will be 122.2 feet (37.2 metres) in width, 278.8 feet (85.0 metres) in length, and 74.2 feet (22.6 metres) in height.
- 105 of the 120 required parking spaces are provided as follows:
    - 53 spaces will be enclosed and heated, including 5 accessible stalls
    - 29 surface parking spaces designated for small cars on the north side of the building
    - 23 surface parking spaces on the south side of the building.
- 36 bicycle parking spaces are required, exceeding the minimum requirement of 12 spaces. This includes 4 outdoor spaces and 32 indoor spaces.
- Access will be provided on the south side of the property from Gaboury Place.
- Landscaping:

- 0 trees and 5 shrubs have been provided along the Gaboury street edge, below the required minimum of 1 tree per 30 feet of frontage and 3 shrubs per 20 feet of frontage.
- None of the required street edge landscaping has been provided on Des Meurons.
- None of the required parking lot interior landscaping has been provided.
- A 6-foot tall brown treated opaque wood fence has been provided.

- An Alternative Equivalence Compliance approval is required for semi-recessed waste bins, which the Public Service supports.

Collaboration with the Public Service:

With the Urban Planning and Design Division

The applicant engaged with the Urban Planning and Design Division during the application process.

With the Public

The applicant held a virtual information session for residents and has included signatures of support with this application.

ANALYSIS AND ISSUES

OurWinnipeg Goal: City Building

Objective 1: Responsibly plan, prioritize and accommodate growth in areas that best support *Complete Communities* principles, to achieve this Plan's sustainable development goals.

- Facilitate growth and change strategically within Winnipeg's unique Transformative Areas and Established Neighbourhoods, to enhance the ability of the urban environment to contribute towards this Plan's goals.

Objective 2: Integrate resilient land use, transportation and infrastructure planning, and investments.

- Ensure that land use, transportation, and infrastructure planning are aligned to provide the conditions for compact, complete and connected communities, supported by sustainable transportation options and municipal infrastructure capacity.

Objective 3: Facilitate development opportunities that complete established communities, and plan new communities as complete and connected from the outset.

- New and existing communities are complete when they demonstrate: universally designed environments; mixed-income neighbourhoods; a continuum of housing types; multi-modal connections within and to elsewhere in the city; heritage conservation; opportunities for physical activity, social interaction, and access to health food, daily needs, employment, education, recreation, and green infrastructure.

Applicable Policies for Established Neighbourhoods – Mature Communities

6.1 Sustainable Urban Growth

- The City must accommodate physical development that reflects this Plan's goals, and achieves a continuum of complete and connected communities over the lifecycle of the Plan.

6.16 Established Neighbourhoods

- Designate Established Neighbourhoods within the Urban Structure, representing lands that will accommodate additional growth in a context-sensitive manner, while promoting the efficient use of land, cost-effective municipal servicing, enhanced housing choice and affordability, and conservation of green infrastructure and heritage resources and districts, as defined in Complete Communities.

6.44 Compatible Growth

- Plan for and protect green and built infrastructure and resources from incompatible development that would compromise achievement of this Plan's goals.

The proposed development is generally aligned with *OurWinnipeg* because it would facilitate residential infill development in a mature community, utilize existing infrastructure, and help meet intensification targets.

COMPLETE COMMUNITIES DIRECTION STRATEGY 2.0

The *Complete Communities Direction Strategy 2.0* supports *OurWinnipeg 2045*, the City's long-range development plan, and has statutory authority as a secondary plan. The strategy guides land use and development in Winnipeg.

The property is located in an Established Neighbourhood – Mature Community policy area of *CCDS 2.0*. Certain goals and policies of *CCDS 2.0* apply to the proposal.

- Goal 1 - *Encourage compatible residential development within Established Neighbourhoods to build more Complete Communities and align with the City's residential intensification target.*

  <u>General policies</u>

  - *1.1 Encourage residential development that positively contributes to neighbourhood character while expanding housing options for residents in a manner that is sensitive and complementary to existing development.*
  - *1.2 Increase the population within Established Neighbourhoods to contribute to the physical renewal and revitalization of older neighbourhoods.*
  - *1.5 Support up to mid-rise residential development in Established Neighbourhoods that is compatible with neighbourhood context.*
  - *1.7 Mid-rise residential uses will generally be accommodated on arterial streets where compatible with adjacent land uses, where they can be conveniently served by transit and local commercial amenities, and in consideration of the factors listed in Policy section 1.6.*

At six stories, the proposed building is considered a medium-rise development under *CCDS 2.0* policies. The building will increase the population in this established neighbourhood and increase housing options for residents while positively contributing to the neighbourhood through design elements detailed under Goal 2.

- Goal 2 - *Design new development in Established Neighbourhoods to a high standard of urban design and construction to ensure new development adds value to public and private urban spaces to create a sense of place and civic pride.*

  Building Setbacks

  - *2.3 Encourage, where contextually suitable, the location of multi-family buildings at or near the front and corner side property lines to create a pedestrian orientation that is respectful of the area context. Use setbacks to provide landscaping, front courtyards for individual units or other amenities that support the pedestrian environment, building design and relationship to the street.*

The applicant has requested Variances to reduce building setbacks on all four required yards: The requested front yard is zero feet. The Public Service is recommending a front yard setback of 10 feet to provide landscaping and support a more comfortable pedestrian environment. See example of 400 Des Meurons in Figure 3, a six-storey building which is setback approximately 20 feet from the front property line on the north corner, and includes shrubs and mature street trees for the length of the property.

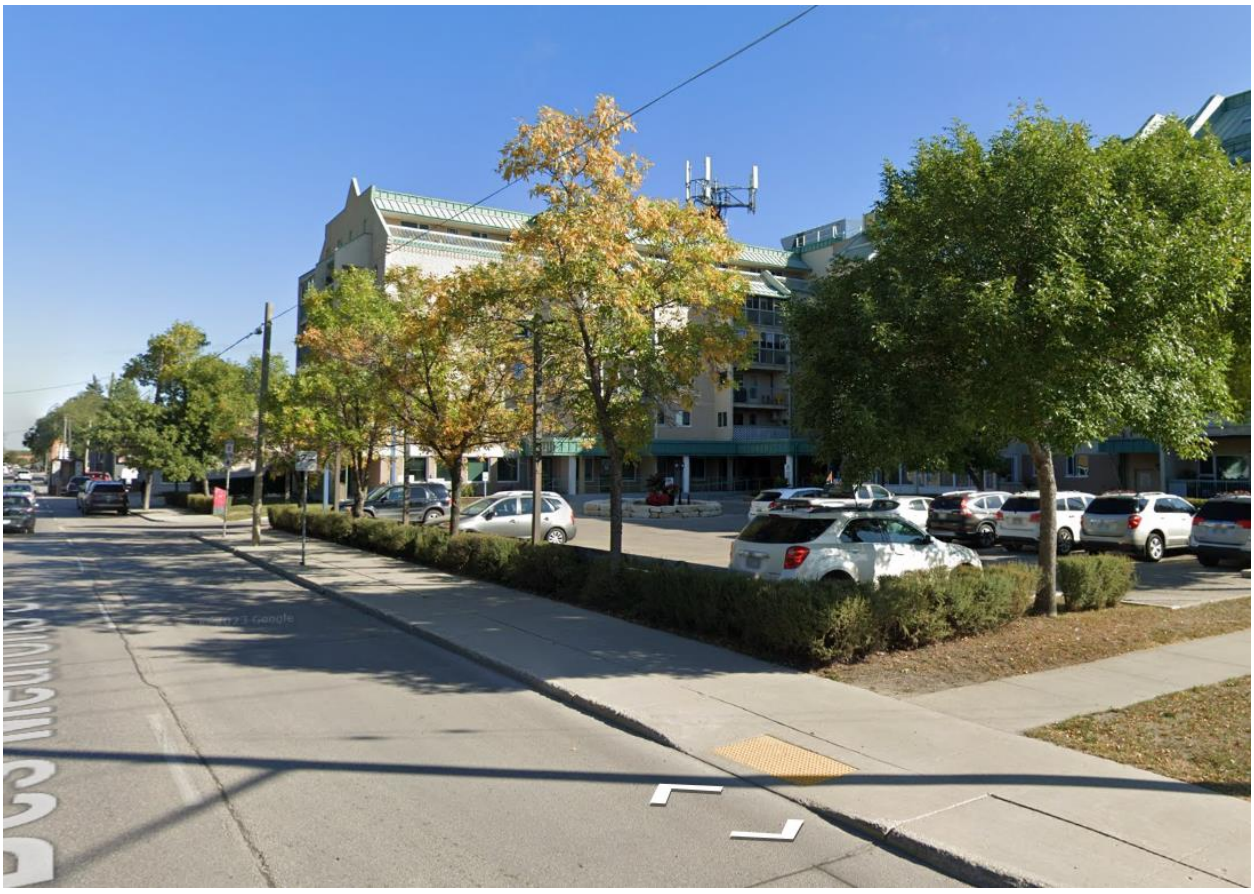

Figure 3: Streetview Photo of 400 Des Meurons (via Google)

Variances are requested for both side yards (8 feet on the north side and 6 feet on the south side). These Variances are recommended for approval as they represent a small fraction of the overall building length, which is largely setback beyond the minimum requirement. The rear yard setback is only a reduction of 5 feet, which is considered supportable.

Building Design

- *2.4 Encourage the use of high-quality, energy efficient, and durable exterior building façade materials.*
- *2.5 Encourage a variety of architectural styles.*
- *2.6 Encourage building design to include a range of architectural features that create visual interest and positively contribute to the visual aesthetics of the street and neighbourhood.*

The proposed building façade includes a mixture of brick cladding, fibre cement/stucco siding, and metal cladding to create a visually interesting design that incorporates arches and insets for balconies on the front. The sides of the structure include significant window coverage and balconies. Features from the front of the building are continued around the corner on the south side. Together, these features create visual interest that positively contribute to aesthetics of the street.

Pedestrian orientation

- *2.9 Buildings with multi unit residential uses should be designed to support pedestrian activity and reinforce the public realm through thoughtful use of architectural features which may include, but are not limited to, the following:*
  - *a. Window placement that supports passive surveillance;*
  - *b. Unit entrances with direct access to the street;*
  - *c. Front porches;*
  - *d. Balconies;*
  - *e. Awnings;*
  - *f. Lighting; and*
  - *g. Height of primary entrances*

The proposed building includes ground floor entrances on Des Meurons. Balconies are located on the front and side of the building to support passive surveillance. The location of the resident amenity space on the southwest corner of the building helps create an active use in the absence of commercial space.

Massing and scale

- *2.12 New development should respect and complement the existing character of the built form of surrounding properties.*
- *2.14 Avoid buildings that create long blank walls facing public streets.*
- *2.15 Encourage the use of architectural features to articulate building walls in order to mitigate the impact of new building mass.*

This property is located on a large lot uncharacteristic of nearby residential properties, which tend to be 1-4 unit residential dwellings. This allows for a higher density development than what is typical for adjacent residential. As noted above, Des Meurons is an arterial street, and CCDS 2.0 allows for mid-rise (5 to 8 storeys) residential developments to be located on arterial streets in mature communities. Elements of the building, such as the majority of the building bulk being setback significantly from the side yards, account for the difference in built form to the south of the site while respecting existing uses abutting to the north and east.

Parking and loading

- *2.16 For properties with public lane access, vehicular access should be taken from the public lane in order to:*

  a. Reduce potential conflict between pedestrians using sidewalks and motor vehicles crossing the public right-of-way to access private property;

  b. Preserve green space and protect existing trees that can be impacted by the establishment of front approaches and corresponding private driveways; and

  c. Prevent fragmentation of the public boulevard in order to better accommodate on-street motor vehicle parking and public snow clearing

The parking area is accessed from the rear lane on the south side of the building off of Gaboury Place, which serves as the public lane for the residential properties to the south. The existing approach on Des Meurons will be removed. Per the ACG report, the Developer is responsible for constructing a sidewalk along the north side of Gaboury Place abutting the planned area.

Site design

- *2.21 Site design should take cues from the character of the neighbourhood or street and should mitigate the potential for land use conflict with adjacent properties that have different scales, densities and uses. Parking location (motor vehicle and bicycle), vehicular access, servicing elements, building placement and landscaping treatment will be important design elements to ensure context-sensitive design.*
- *2.22 Create or reinforce compact, pedestrian-oriented urban development patterns by ensuring the siting, form and scale of new development has a strong relationship to the street, public spaces and amenities in a way that is consistent with neighbourhood context.*

While the rezoning to “RMF-L” Residential Multi-Family (Large) district is supported, the requested density Variance has not been recommended for approval. Consequentially, the requested parking Variance and zero-foot front yard setback are not supported either. These recommendations from the Public Service will guide the building design toward a scale more appropriate for the surrounding context.

ZONING BY-LAW 200/2006

- The “RMF-L” Residential Multi-Family (Large) district is intended for larger-scale multi-family development, such as mid-to-high rise multi-unit buildings.
- The subject site is located on the corner of an arterial street and a public lane.
- The proposed multi-family development can be accommodated in the “RMF-L” Residential Multi-Family (Large) district.

ADDITIONAL CONSIDERATIONS

Zoning Agreement

- Given that the proposed building will need to be changed if recommended modifications to the Variances are supported, a condition requiring plan approval to the Director of Planning, Property and Development and Riel Community Committee has been included.

SUMMARY

The Urban Planning Division recommends **approval** for the following reasons:

- The rezoning will result in the establishment of a multi-family development that is consistent with policies in *OurWinnipeg 2045* and *Complete Communities 2.0*.

RECOMMENDATION

The Urban Planning Division recommends this application be **approved** and the subject property be Rezoned to the “RMF-L Mature Communities PDO-1” Residential Multi-Family (Large) district.

S. Nuttall, MCP	n/a	n/a	n/a	

RECOMMENDATIONS

1. That the Winnipeg Zoning By-law No. 200/2006 be amended under Development Application No. DAZ 202/2026 by rezoning the subject land to an “RMF-L Mature Communities PDO-1” Residential Multi-Family (Large) district in accordance with the proposed by-law attached as Appendix “A” to this report and as shown on the map dated June 2, 2026 and attached as Schedule “B” to this report, subject to the following conditions:

    A. That the owner of the subject land (the “Owner”) enter into a Zoning Agreement with the City pursuant to subsection 240(1) of The City of Winnipeg Charter in accordance with the following:

        i. For those portions of the Owner’s Land zoned “RMF-L” Residential Multi-Family (Large), the Owner must submit plans showing the location and design of any and all proposed:

        - principal buildings;
        - accessory parking areas;
        - private approaches;
        - garbage enclosures;

- fencing;
- landscaping; and
- free-standing signage

on the Owner's Land ("Works") to the Director of Planning, Property and Development (the "Director") and the Riel Community Committee for approval prior to the issuance of any building or development permit, and thereafter must construct the Works in substantial conformance with the approved plans and maintain the Works to the satisfaction of the Director.

ii. That the height of all buildings on the land shall be limited to 75 feet (22.86 metres).

B. That the Developer enter into a Servicing Agreement with the City pursuant to subsection 259(1) of The City of Winnipeg Charter in accordance with the report of the Administrative Coordinating Group dated May 19, 2026 and attached as Appendix "B" to this report.

C. That the City enter into, execute and deliver with the Developer

(i) a Zoning Agreement in accordance with recommendation 1.A.; and

(ii) a Servicing Agreement in accordance with recommendation 1.B.,

and such other agreements as determined necessary by the City Solicitor/Director of Legal Services to implement the intent of the foregoing (the "Ancillary Agreements").

D. That authority be delegated to the Director of Planning, Property and Development to negotiate and approve the terms and conditions of the Zoning Agreement, the Servicing Agreement and any Ancillary Agreements in accordance with this report and such other terms and conditions determined necessary by the City Solicitor/Director of Legal Services to protect the interests of the City.

4. That, in lieu of the dedication of land, the developer shall provide a cash payment representing ten percent (10%) of the planned area value of the Development Application (the "Dedication Fee"), as determined by the City's Director of Planning, Property and Development.

3. That, upon instruction from the Director of Planning, Property and Development, the Director of Legal Services/City Solicitor prepare a by-law in accordance with recommendation 1 (the "By-law") and bring same directly to Council by way of communication for first reading.

4. That, upon instruction from the Director of Planning, Property and Development that the developer has paid all fees, charges or other amounts due in respect of DAZ 202/2026 (collectively, the "Fees"), and subject to s. 236.1 of The City of Winnipeg Charter, the Director of Legal Services/City Solicitor be directed to return the By-law directly to Council by way of communication for consideration for second and third reading.

5. That Development Application No. DAZ 202/2026 will be deemed to be concluded and all approvals in connection with same will expire if the developer has not paid the Fees within 2 years following the date on which Council gives first reading to the By-law, unless the developer applies for an extension of time before the expiration of that 2 year period and Council approves the extension.

6. That the By-law will come into force when the Zoning Agreement is fully executed and registered in the Winnipeg Land Titles Office by way of caveat against the lands described therein.

7. That the By-law will be repealed without coming into force 1 year following the date it is enacted if the Zoning Agreement is not registered in accordance with recommendation 6, unless the developer applies for an extension of time before the expiration of that 1 year period and Council approves the extension.

8. That the Variance Order shall come into force and effect upon the coming into force and effect of the zoning by-law for the subject land under File No. DAZ 202/2026.

9. That the proper officers of the City be authorized to do all things necessary to implement the intent of the foregoing

REASON FOR THE REPORT

- The applicant wishes to rezone the subject property to the "RMF-L" Residential Multi-Family (Large) district for the purpose of a 120-unit multi-family residential building.
- Rezoning applications require a Public Hearing per the *Development Procedures By-law* and *The City of Winnipeg Charter.*
- This report is being submitted for the Committee's consideration of the development application at the Public Hearing.

IMPLICATIONS OF THE RECOMMENDATIONS

If the recommendations of the Urban Planning Division are concurred in, the land will be **Rezoned.**

- *1.5 Support up to mid-rise residential development in Established Neighbourhoods that is compatible with neighbourhood context.*
- *1.7 Mid-rise residential uses will generally be accommodated on arterial streets where compatible with adjacent land uses, where they can be conveniently served by transit and local commercial amenities, and in consideration of the factors listed in Policy section 1.6.*

At six stories, the proposed building is considered a medium-rise development under *CCDS 2.0* policies. The building will increase the population in this established neighbourhood and increase housing options for residents while positively contributing to the neighbourhood through design elements detailed under Goal 2.

- Goal 2 - *Design new development in Established Neighbourhoods to a high standard of urban design and construction to ensure new development adds value to public and private urban spaces to create a sense of place and civic pride.*

  Building Setbacks

  - *2.3 Encourage, where contextually suitable, the location of multi-family buildings at or near the front and corner side property lines to create a pedestrian orientation that is respectful of the area context. Use setbacks to provide landscaping, front courtyards for individual units or other amenities that support the pedestrian environment, building design and relationship to the street.*

The applicant has requested Variances to reduce building setbacks on all four required yards: The requested front yard is zero feet. The Public Service is recommending a front yard setback of 10 feet to provide landscaping and support a more comfortable pedestrian environment. See example of 400 Des Meurons in Figure 3, a six-storey building which is setback approximately 20 feet from the front property line on the north corner, and includes shrubs and mature street trees for the length of the property.

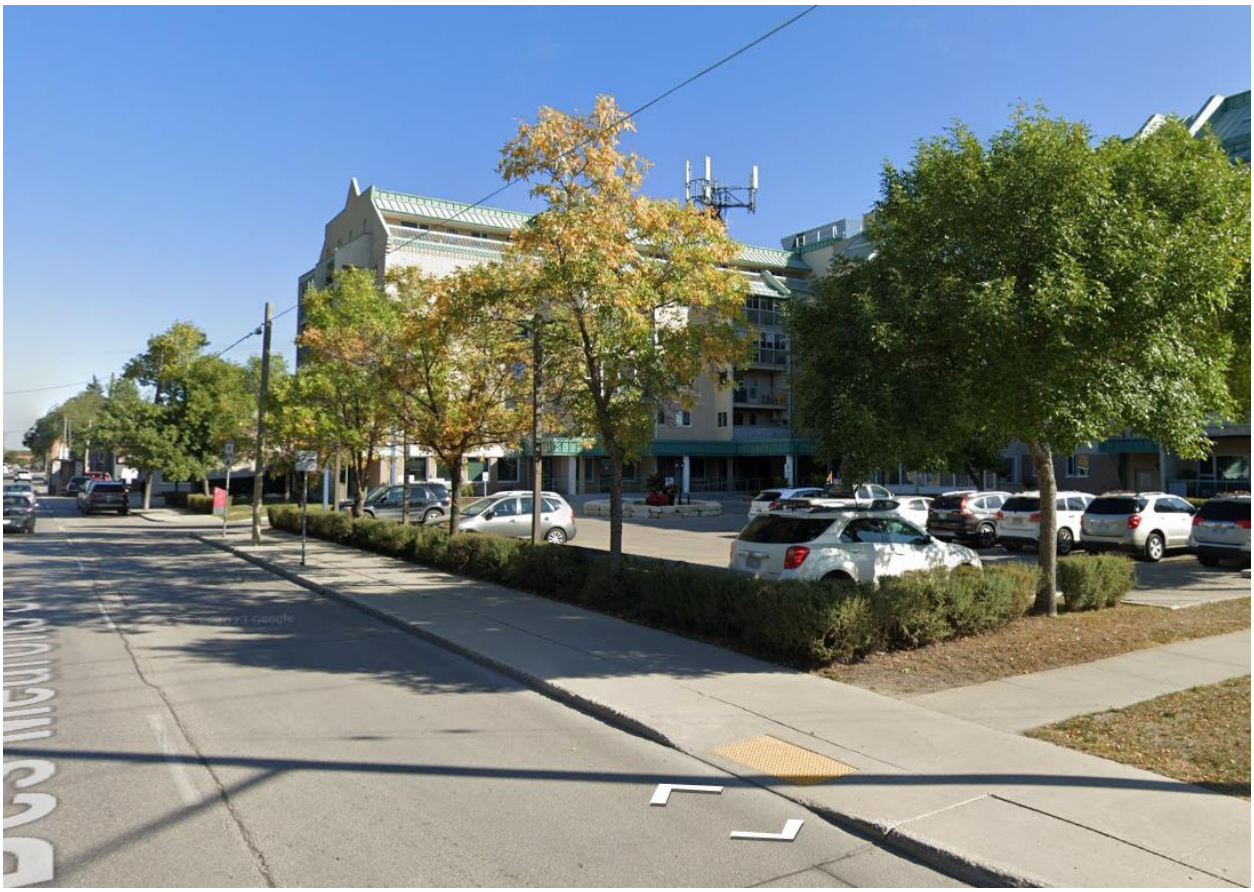

Figure 3: Streetview Photo of 400 Des Meurons (via Google)

Variances are requested for both side yards (8 feet on the north side and 6 feet on the south side). These Variances are recommended for approval as they represent a small fraction of the overall building length, which is largely setback beyond the minimum requirement. The rear yard setback is only a reduction of 5 feet, which is considered supportable.

Building Design

- *2.4 Encourage the use of high-quality, energy efficient, and durable exterior building façade materials.*
- *2.5 Encourage a variety of architectural styles.*
- *2.6 Encourage building design to include a range of architectural features that create visual interest and positively contribute to the visual aesthetics of the street and neighbourhood.*

The proposed building façade includes a mixture of brick cladding, fibre cement/stucco siding, and metal cladding to create a visually interesting design that incorporates arches and insets for balconies on the front. The sides of the structure include significant window coverage and balconies. Features from the front of the building are continued around the corner on the south side. Together, these features create visual interest that positively contribute to aesthetics of the street.

Pedestrian orientation

- *2.9 Buildings with multi unit residential uses should be designed to support pedestrian activity and reinforce the public realm through thoughtful use of architectural features which may include, but are not limited to, the following:*
  - *a. Window placement that supports passive surveillance;*
  - *b. Unit entrances with direct access to the street;*
  - *c. Front porches;*
  - *d. Balconies;*
  - *e. Awnings;*
  - *f. Lighting; and*
  - *g. Height of primary entrances*

The proposed building includes ground floor entrances on Des Meurons. Balconies are located on the front and side of the building to support passive surveillance. The location of the resident amenity space on the southwest corner of the building helps create an active use in the absence of commercial space.

Massing and scale

- *2.12 New development should respect and complement the existing character of the built form of surrounding properties.*
- *2.14 Avoid buildings that create long blank walls facing public streets.*
- *2.15 Encourage the use of architectural features to articulate building walls in order to mitigate the impact of new building mass.*

This property is located on a large lot uncharacteristic of nearby residential properties, which tend to be 1-4 unit residential dwellings. This allows for a higher density development than what is typical for adjacent residential. As noted above, Des Meurons is an arterial street, and CCDS 2.0 allows for mid-rise (5 to 8 storeys) residential developments to be located on arterial streets in mature communities. Elements of the building, such as the majority of the building bulk being setback significantly from the side yards, account for the difference in built form to the south of the site while respecting existing uses abutting to the north and east.

Parking and loading

- *2.16 For properties with public lane access, vehicular access should be taken from the public lane in order to:*

  a. Reduce potential conflict between pedestrians using sidewalks and motor vehicles crossing the public right-of-way to access private property;

  b. Preserve green space and protect existing trees that can be impacted by the establishment of front approaches and corresponding private driveways; and

c. Prevent fragmentation of the public boulevard in order to better accommodate on-street motor vehicle parking and public snow clearing

The parking area is accessed from the rear lane on the south side of the building off of Gaboury Place, which serves as the public lane for the residential properties to the south. The existing approach on Des Meurons will be removed. Per the ACG report, the Developer is responsible for constructing a sidewalk along the north side of Gaboury Place abutting the planned area.

Site design

- *2.21 Site design should take cues from the character of the neighbourhood or street and should mitigate the potential for land use conflict with adjacent properties that have different scales, densities and uses. Parking location (motor vehicle and bicycle), vehicular access, servicing elements, building placement and landscaping treatment will be important design elements to ensure context-sensitive design.*
- *2.22 Create or reinforce compact, pedestrian-oriented urban development patterns by ensuring the siting, form and scale of new development has a strong relationship to the street, public spaces and amenities in a way that is consistent with neighbourhood context.*

While the rezoning to "RMF-L" Residential Multi-Family (Large) district is supported, the requested density Variance has not been recommended for approval. Consequentially, the requested parking Variance and zero-foot front yard setback are not supported either. These recommendations from the Public Service will guide the building design toward a scale more appropriate for the surrounding context.

ZONING BY-LAW 200/2006

- The "RMF-L" Residential Multi-Family (Large) district is intended for larger-scale multi-family development, such as mid-to-high rise multi-unit buildings.
- The subject site is located on the corner of an arterial street and a public lane.
- The proposed multi-family development can be accommodated in the "RMF-L" Residential Multi-Family (Large) district.

ADDITIONAL CONSIDERATIONS

Zoning Agreement

- Given that the proposed building will need to be changed if recommended modifications to the Variances are supported, a condition requiring plan approval to the Director of Planning, Property and Development and Riel Community Committee has been included.

SUMMARY

The Urban Planning Division recommends **approval** for the following reasons:

- The rezoning will result in the establishment of a multi-family development that is consistent with policies in *OurWinnipeg 2045* and *Complete Communities 2.0*.

RECOMMENDATION

The Urban Planning Division recommends this application be **approved** and the subject property be Rezoned to the “RMF-L Mature Communities PDO-1” Residential Multi-Family (Large) district.
