On our main campus located at 442 Scotia St., we have a heritage property listed with the city heritage department. This home is listed as a grade 2 heritage home with the City of Winnipeg's heritage department.

The home's roof is in disrepair requiring a full shingle, soffit and eaves replacement. The cost estimate for this work is approximately \$462,000- estimates attached.

Marymound would like to save the home. We operate a school program on the main floor of the property, with plans for offices on the second floor- if we can get the roofing repaired. The property welcomes the public into the space via tours and school participants and their families.
