## Part B: Project Proposal Submission

### a. Organization description:

#### Who:

The North End Women's Centre Inc. (NEWC) is a non-profit, provincially incorporated organization based in the Mynarski Ward in Winnipeg, Manitoba. NEWC has been operating since 1984 and owns the property at 394 Selkirk Avenue, Winnipeg (the Subject Site).

NEWC's mission is to facilitate healing, wellness, and capacity-building through community-centred, trauma-informed approaches. NEWC supports women and gender-diverse individuals—many of whom face barriers related to poverty, housing instability, violence, intergenerational trauma, and systemic inequities—by providing low-barrier access to basic needs, crisis support, healing and wellness programs, counselling, advocacy, and housing-related services.

NEWC's objectives include:

- Providing safe, accessible, and inclusive community space for individuals who experience barriers to traditional service systems;
- Supporting long-term wellness and stability through wrap-around, culturally responsive programs; and
- Strengthening community resilience by creating infrastructure that reflects the needs and dignity of the community it serves.

### b. Project description:

#### What:

NEWC is undertaking an expansion of the existing Drop-In Centre and Community Spaces, a major capital redevelopment at 394 Selkirk Avenue. The project will include:

- Construction of an expanded community resource and drop-in centre;
- Integrate program, counselling, healing, and gathering spaces;
- Include eight (8) transitional housing units with on-site supports (2<sup>nd</sup> floor); and
- Improve accessibility, safety, sustainability, and operational efficiency across the site.

The scope includes site preparation, demolition of obsolete structures, new construction, renovation of existing spaces, mechanical and electrical upgrades, accessibility improvements, and completion of interior program spaces.

The project costs are supported by two construction cost estimates, including:

- A Class C construction cost estimate (August 2025)

- A Class B construction cost estimate (April 2026), prepared by the preferred contractor

The total project cost is based on the preferred contractor's Class B cost estimate and the soft costs required to complete the project (as outlined in the attached Global Capital Budget). Currently, the projected global capital budget is \$16.6 million.

Through the Mynarski Ward's Community Fund Capital, NEWC is seeking funding specifically for community-accessible components of the project, including interior community/program spaces and associated construction elements that directly support public use of the facility.

**Where:**

The project is located at 394 Selkirk Avenue, Winnipeg, Manitoba (R2W 2M2). NEWC owns the property in the Mynarski Ward in Winnipeg's North End. A site plan identifying the exact location of the work forms part of this application's supporting documentation (attached).

**Why:**

The existing NEWC facilities are aging, overcrowded, and no longer adequate to meet the volume and intensity of services urgently required by the community. Demand for NEWC programs has increased significantly, and the current configuration limits accessibility, safety, privacy, and program effectiveness.

The purpose of the project is to:

- Provide a safe, welcoming, and accessible public facility for community members;
- Enhance the quality and availability of community-based services and supports;
- Create spaces that support healing, dignity, and long-term stability; and
- Strengthen the neighbourhood by investing in community infrastructure that is open and accessible to the public.

The completed facility will be available for public use, enhance public access to essential community services, and serve as a long-term asset for the North End.

**When:**

The general project timeline is as follows:

- Design and pre-development: Completed by the end of June 2026
- Anticipated construction start: Summer 2026, subject to funding approvals
- Anticipated construction completion: Summer 2028

Final construction scheduling will be confirmed once the total required construction funding is secured and tendering is complete.

# Price Quotation

We are pleased to provide you with our proposal to furnish and install:

1 Otis Gen3 Core™ Elevator System

**Proposed Elevator System Cost: \$135,000.00 + GST**

This quotation is valid for thirty (30) days from the date of submission and is based upon:

North End Community Spaces & Resource Centre Preliminary Architectural Drawings, dated July 4, 2025

North End Community Spaces & Resource Centre Outline Specifications, dated July 4, 2025

Otis predicates the quote upon timely furnishing of a completed hoistway for uninterrupted use. This quotation is based on all elevator material being delivered to site at the scheduled material delivery date shown in the scope of work section. If the project is delayed and material cannot be accepted at this date, there will be additional costs based on the new delivery date.

Lead times for shop drawings are approximately 3-4 weeks after our receipt of a contract. Manufacturing time is approximately 12-14 weeks after receipt of a complete approval package, initial payment and a fully executed contract.

We appreciate having the opportunity to provide you with our proposal on this project and look forward to working with you and your project team.

The Gen3 Core™ elevator was designed specifically for low-rise buildings, bringing passengers connectivity, style, and comfort. With standard features, the Gen3 Core helps minimize energy consumption, material usage and installation costs.

#### COMPACT SIZE

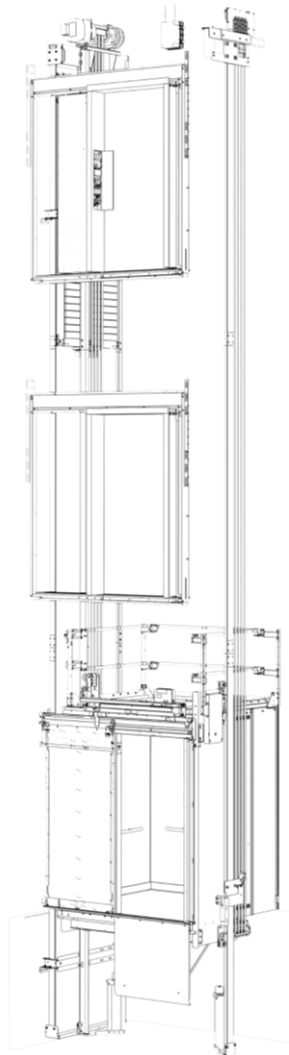

- Compact gearless machine
- Saves construction costs
- Architectural flexibility

#### REFRESHINGLY QUIET

- Smooth coated steel belts - no metal-to-metal contact
- Pulse™ system – 24/7 belt monitoring

#### MOVING WITH EFFICIENCY

- ReGen drive technology
- LED lighting
- Sleep mode operation
- Zero machine and belt lubrication

#### CONFIDENCE IN RELIABILITY

- Otis ONE IoT digital platform provides the connected intelligence that defines the Gen3 elevator
- OTISLINE® 24/7 customer service

#### OTIS MADE

- ISO-certified factories
- Meticulous design processes
- Quality manufacturing through Otis Performance Excellence (OPXL)
