Subject: waverley west

warm greetings,

i would like to register my oppostition to the proposed development called "waverley west".

i would like to see more foresight and vision put towards how we can create healthy, safe neighbourhoods within our current structures - cooperative blocks of homes, more green space within city boundaries, better public transportation, etc. i believe that many business people would be willing to live within the city if we could put our efforts into taking care of what we already have.

sincerely,
kimlee wong morrisseau
