My husband, Donald S. Houston, and I oppose the Waverley West development. It will only compound commuter traffic congestion in our North River Heights neighbourhood. In the 10 years we have lived on Montrose Street, we have seen increased vehicular traffic using area streets in general and on our street, in particular, as a defacto on-ramp for Academy "freeway." This is becoming unacceptable. We are not alone in our block in thinking that another development on the city's southwest edge will only make this worse; turning our "pedestrian-friendly" residential neighbourhood into a thoroughfare for the convenience of others who - ironically -- wish to live in a new suburb being touted as "pedestrian friendly." Thank you.
