- In 1999, the Planning, Property and Development Department, through its Land Enhancement Program, reviewed the potential development of the site. REASON FOR THE REPORT:

The Planning, Property and Development Department is in receipt of an Offer to Purchase the "Subject City Property" as shown on Misc. Plan No. 10618/7. Approval by the Standing Policy Committee on Property and Development for the proposed sale is required.

HISTORY:

The City-owned property shown shaded on Misc. Plan No. 10618/7 was acquired by Tax Sale in 1992 from Victoria Park Development Ltd. At its meeting held on December 1, 1992, the former Committee on Finance and Administration instructed the former Director of the Land Surveys and Real Estate Department to:

> *"...withhold this property from sale until such time as the City's needs are identified at this location and to deny the request of the former owner to re-acquire title to the property on a redemption for tax basis."*

In 1999, the Planning, Property and Development Department, through its Land Enhancement Program, reviewed the potential development of the site. It was determined that given the costs to service the subject site and the projected revenues, the highest and best use was for the City to sell the lands to an adjacent owner to be incorporated into a larger residential subdivision. In this regard, the Department circulated the property to all City Departments to determine if the site could be declared surplus and offered for sale. There were no objections to a potential sale of the site provided that a portion of the property was retained as a "High-Quality Natural Area" for park/open space purposes.

On April 18, 2000, the Assiniboia Community Committee advised that it had no objections to the proposed sale of the subject property.

On February 21, 2001, the Department received a letter from Longboat with respect to its interest in acquiring the subject City lands. Longboat, through an affiliated holding company, Manchester Trading Company (1985) Limited, had ownership of approximately 30 acres along the Assiniboine River, East of Camp Manitou Road. Longboat was interested in acquiring the subject City lands for inclusion within its proposed residential development.

Longboat advised that its proposed development would create approximately 120 residential lots. The average size of the lots will be approximately 80 feet wide by 150 feet deep (12,000 square feet). The overall development would require the reconfiguration of the existing property boundaries with a number of the adjacent landowners in the area. Longboat indicated that it commenced discussions with the various landowners in the area to reconfigure the land holdings to facilitate the proposed residential development. At that time, only preliminary discussions had been held with various landowners to appropriately assemble all of the lands for the proposed development. Longboat indicated it was confident that it would be able to make suitable arrangements with each of the various landholders.

The affected parties were as follows:

- The Roman Catholic Archiepiscopal Corporation of Winnipeg (Assumption Cemetery)
- The First Alliance Church

- Chapel Lawn Memorial Gardens Ltd.
- The City of Winnipeg
- Fairmont Real Estate Ltd. (Cholakis family)

On May 3, 2001, the Standing Policy Committee on Property and Development instructed the Director of the Planning, Property and Development Department to negotiate the terms of sale with Longboat for the "Subject City Property" shown hatched on Misc. Plan No. 10618/2 and report back to the Standing Policy Committee on Property and Development.

DISCUSSION:

Ongoing negotiations have resulted in the Department receiving from 4922507 Manitoba Ltd. (subsidiary of Longboat) an Offer to Purchase the "Subject City Property" as shown on Misc. Plan No. 10618/7.

Details of the Offer are as follows:

Location:	Approximately 1,200 feet South of Portage Avenue, immediately West of the Perimeter Highway
Legal Description:	Part Lot 1, Plan 18878
Registered Owner:	The City of Winnipeg
Certificate of Title No.:	1241002
Realty Roll No.:	Part 7-0-2052300
Zoning:	"A" Agriculture District
Site Size/Area:	27.488 acres identified as "Subject City Property" on Misc. Plan No. 10618/7 The lands are vacant and undeveloped. The site extends almost to the Assiniboine River. A portion of the lands that is adjacent to the Assiniboine River has been identified as a "High-Quality Natural Area" in Plan Winnipeg 2020 Vision and is to be retained by the City for park/open space purposes.
Proposed Purchaser:	4922507 Manitoba Ltd. (R. Stephen Chipman)
Price Offered:	$343,600.00 ($12,500.00 per acre)
Deposit:	$51,540.00

The Offer to Purchase is in accord with the City's standard terms and conditions and is subject to the following:

a) Due Diligence:

This Offer to Purchase shall be subject to the following conditions:

- The Purchaser assembling the lands necessary to complete the approximately 90 acre development of which the subject City property forms a part.
- The Purchaser obtaining a rezoning and subdivision of the lands to allow the development of the lands for residential use.

- The Purchaser satisfying itself as to the geotechnical condition of the site from a construction suitability assessment.
- The Purchaser completing satisfactory negotiations with the City of Winnipeg, the Province of Manitoba, the adjacent landowners and the Municipality of Headingley to provide satisfactory access to the proposed subdivision.
- If any of these conditions are not satisfied or waived in writing within 180 days from the date of approval, this Offer to Purchase shall be null and void, and the deposit monies are to be returned to the Purchaser forthwith without deduction.

b) The date of Closing, Possession and adjustments shall be on or before 210 days from the date of approval of the sale.

Site Configuration:

The size and configuration of the site was changed to reflect the requirements of the Park Strategic Planner who indicated that the City will require the land fronting on the Assiniboine River to a depth of 50 meters, which is approximately 2.6 acres, and comments from the Water and Waste Department indicating that the City should retain ownership of the lands containing the interceptor sewer.

Public Works Department:

Access to the proposed development is a major issue and the proposed Purchaser has made the Offer to Purchase subject to the Purchaser completing satisfactory negotiations with the City of Winnipeg, the Province of Manitoba, the adjacent landowners and the Municipality of Headingley to provide satisfactory access to the proposed subdivision.

The Provincial Government has jurisdiction over the Perimeter Highway and Portage Avenue West of the Perimeter Highway. All service roads are under the jurisdiction of the City of Winnipeg. The rights-of-way under the City's jurisdiction would include McCarthy Street and Oxbow Bend Road. McCarthy Street is only partially improved and Oxbow Bend Road is a gravel road running parallel both on the East and West Side of the Perimeter Highway looping under the bridge that crosses the Assiniboine River. The Planning, Property and Development Department has discussed the proposal with the Province and it has indicated that there does not appear to be any immediate concerns. The Province has indicated that eventually the existing access onto the Perimeter Highway from Oxbow Bend Road will be removed. Both the Province and the City will require a detailed traffic/volume analysis along with detailed drawings showing the proposed access and roadway changes.

Servicing, Water , Waste and Land Drainage:

Issues involving servicing, water, waste and land drainage are all part of the rezoning and subdivision process and will be dealt with during this process.

Planning, Property and Development:

Based on the Department's review of the site through the Land Enhancement Program, the highest and best use of the subject City site would be through consolidation with adjacent owners land for the development of a larger residential subdivision.

Plan Winnipeg 2020 Vision, which was adopted on December 21, 2001, has designated the subject site as a "Neighbourhood" Policy Area. Under this designation, the proposed residential development would be permitted upon a successful rezoning and subdivision of the site.

The original price offered was $10,500 per acre. Ongoing negotiations have resulted in an offer at a price of $12,500 per acre. The price offered is within a reasonable range of value, between $9,000 to $15,000 per acre, which is in accord with current appraisal of the property. The value of the subject City property was established using a development approach that requires consideration of the specific property characteristics. The subject City property has significant constraints due to access, noise attenuation and servicing requirements. It could not be developed independently in the short term. The most efficient way to develop the property is to include it in the development of adjacent lands.

The Planning, Property and Development Department supports the sale of the property to 4922507 Manitoba Ltd. for the following reasons:

1. The price offered is within a reasonable range of value that is in accord with a current appraisal.
2. There is presently a shortage of residential building lots in West Winnipeg. This development will accommodate some of the demand in this area.
3. Development will result in a significant new property tax base for the City.
