STANDING POLICY COMMITTEE ON PUBLIC WORKS

QUESTION PERIOD

Minute No. 318
Councillor Magnifico made reference to poor road and lane conditions due to accumulated snowfall. He questioned why the roads and lanes were in such poor condition this year and if consideration was being given as to how to avoid a similar situation in the future.

Councillor Eadie replied that the Public Works Department was undertaking a review of the snow clearing policy and that a report would be forthcoming, along with a possible Council Seminar, before next winter.
