SUMMARIZATION OF REPRESENTATIONS AND SUBMISSIONS
MADE AT THE PUBLIC HEARING

Herb Bodnaruk appeared in support of the application, and submitted plans of the subject property, filed as Exhibit 9. He requested that the administrative recommendation with respect to the land dedication be waived in this instance.

Susan Miller appeared in opposition to the application. She expressed concern regarding the proposed lot size of 45 feet in width and commented that her home is situated on a lot size of 50 feet in width.

Mark and Donna Shaddock appeared for information. Mark Shaddock expressed concern that the lot sizes of the subject development may be smaller than 45 feet in width, and in this connection, commented that they should conform to the lot sizes on Mitchelson Way, where they reside, which are approximately 60 feet in width. In addition, he suggested that Mitchelson Way be maintained as a dead-end street and not continued to Bonner Avenue, which they felt would increase the traffic.

Councillor Lubosch confirmed that the lots sizes would be a minimum of 45 feet in width.

Subject: An application has been received for approval of a plan of subdivision and related zoning change to Zoning By-Law No. 6400/94 by rezoning the subject lands from a "A-5" Agricultural District to "R1-5.5" Residential District to allow for the creation of single family lots.

Location: West of Mitchelson Way between John Hyuda Drive and Bonner Avenue

Applicant: Herb and Violet Bodnaruk & Henryk and Irena Kosciuczyk
Owner: Same

Recommendation: Approved

Site Description

The subject site, which includes several undeveloped parcels and one existing single-family residence, is zoned "A-5" Agricultural and R1-5.5" Residential. The total site area is 1.70 acres. The subject site has frontage of ±197 feet (60 metres) along John Hyuda Drive, ±420 feet (128 metres) along Mitchelson Way, and ±141 feet (43 metres) along Bonner Avenue.

North: Single-family residences zoned "R1-5.5" Residential
South: Single-family residences zoned "R1-5" Residential
East: Single-family residences zoned "R1-5.5" Residential and "A-5" Agricultural
West: Single – family residences zoned "R1-5.5" Residential

Description of the Proposed Development

The applicants propose to acquire land from the City and to consolidate that land with several existing parcels to create a 1.70 acre, seven (7) lot subdivision. One existing residence will remain (Lot 7) and six additional lots will be created. It is anticipated that Lot 2 will be further subdivided into three additional lots at a future date, once access can be provided off Mitchelson Way.

The lots will range in size from a minimum of 5,630 square feet (Lots 5 & 6) to a maximum of ± 22,000 square feet (Lot 2). Four lots will front onto John Hyuda Drive, two lots will front onto Bonner Avenue, and one lot will front onto Mitchelson Way.

Further to this, the applicant is requesting that the land be rezoned from "A-5" Agricultural to "R1-5.5" Residential.

Additionally, a variance for substandard lot widths of 45 feet (13.72 metres) instead of 50 feet (15.24 metres) on Lots 5 and 6 (DAV 05-102075/D) is also being considered in association with this application.

Finally, it should be noted that two properties which are immediately adjacent to the proposed subdivision (732 Bonner Avenue and 734 Bonner Avenue) currently have two zoning designations applying to their properties - R1-5.5 Residential in the front portion of their lots and A-5 on the rear portions of their lots. As part of this application, these two property owners are also requesting a rezoning to R1-5.5 for their entire properties.

Administrative Analysis

As previously mentioned, the applicant is proposing to subdivide and rezone a 1.70 acre parcel in order to establish seven single-family residential lots. The Planning and Land Use Division has evaluated the proposed rezoning and offer the following comments:

Plan Winnipeg
The subject land lies within the Neighbourhood Policy Area which allows for single- family development proposals.

Compatibility with existing neighbourhood and surrounding uses
The Department supports single-family residential use on the subject lands. The proposed lot sizes are consistent to the surrounding context of single family residential uses in the Springfield North Neighbourhood and represent a logical extension of subdivision along John Hyuda Drive and Bonner Avenue.

Servicing
A condition has been added restricting the development of Lot 2 until the land drainage sewer and concrete pavement have been constructed by the City and/or others in Mitchelson Way.

Previous Agreements
A subdivision agreement in a previous application (DASSF 698/99) restricts the issuing of building permits on Lot 3 until such time that a further plan of subdivision with other lands immediately to the west and south is registered. This caveat can be withdrawn if this application proceeds.

Recommendation

The Planning and Land Use Division recommends approval for the following reasons:

- The proposed development is a logical extension of the residential development that has already occurred along John Hyuda Drive and Bonner Avenue;
- Services for residential development are available or are forthcoming;
- The proposed rezoning is in compliance with Plan Winnipeg and its policies.
- The proposed rezoning is compatible with the surrounding properties;
- The proposed use will not create an adverse effect on the amenities, use, safety and convenience of the adjoining properties and adjacent area;
- There have been a number of similar rezonings and lot subdivisions that have been approved in the immediate area.

Recommended Conditions of Approval

I. That the plan of subdivision proposed under File No. DASZ 52/04 be approved for preparation as a plan of subdivision by a Manitoba Land Surveyor in accordance with Schedule "A" for File No. DASZ 52/04, attached hereto and dated February 21, 2005 for registration in the Winnipeg Land Titles Office.
